## 1909 FOOTBALL SCHEDULE

Manager Redman Has Arranged An Excellent Schedule Consisting of Eight Games.

The Andover football schedule for the season of 1909 has been completed by Manager Redman and is now issued for the first time. There are eight games on the list, which is the same number as was on the schedule of last fall. The same teams will be played with the exception of the contest with Princeton Fresh. Pennsylvania Fresh. will be played. As usual the game with Cushing Academy on September 25 will start the season, and Lowell Textile will be played a few days later. On October 9, Yale Fresh. will play down here, while on October 30th, the Academy eleven will go to New Haven. The four games with the college Freshman will put the men in good condition for the Exeter contest, which will be played on November 6. With the exception of the game with Yale Freshman on October 30 and with Exeter on November 6, all the games will be played on Brothers' Field. Great credit is due to Manager Redman for his excellent work in completing his schedule at such an early date, for in former years the list of games has not been published until the spring term.

The schedule:

- Sept. 25—Cushing Academy.
- Sept. 29—Lowell Textile.
- Oct. 2—Worcester Academy.
- Oct. 9—Yale Freshman.
- Oct. 16—Pennsylvania Freshman
- Oct. 23—Harvard Freshman.
- Oct. 30—Yale Freshman at New Haven.
- Nov. 6—Exeter at Exeter.

### MR. MOOREHEAD LECTURES

Mr. Moorehead gave a very interesting lecture on the Social Life of the Indians last evening in the Archaeology Building.

The talk was illustrated with a number of picturesque slides, showing the surroundings in which the Indian lives.

The speaker took up the social life of the Indians from several standpoints, telling of their pleasures and amusements. He then took up the distinction between classes, stating that the red man is very rigid about marrying his daughter into a class other than his own. In the latter part of the lecture, Mr. Moorehead took up the various brotherhoods among the Indians, and their relation to one another.

## SUCCESSFUL OPEN NIGHT

Record Broken in High Dive. New Mark Set by Butler and Tilton.

A very successful open meet was held in the gymnasium on Saturday evening in which many fellows took part. Ribbons were given for the first two places in the different events. There was a close competition in every race, and the record was broken for the high dive when Tilton and Butler tied at 6 ft. 2 in. The preliminary heats of the 25-yard dash were run off first, the winners of which were Butler, Barker, Pillsbury and Boutwell. These four men ran in the finals, and Barker and Pillsbury finished in first and second place respectively. Four heats were now run off in the 25-yard low hurdles. Hall won the first, Smith the second, Tilton the third and Pillsbury the fourth. After the semi-finals Smith and Tilton were left to contest in the finals which Smith won by a close margin. The next event was the high dive, which resulted in a tie between Butler and Tilton at 6 ft. 2 in., this height being 2 inches higher than the former record. Although both men made repeated efforts to clear the bar, they were unable to go higher and tossed for the ribbons. The spring board jump furnished some close competition, but Boutwell finally won out making a leap of 6 ft. 6 in. Colver and Clarke tied for second place, and Colver won the toss for the prize.

As the closing event the contestants chose up sides and ran an exciting relay. One team was composed of Boutwell (captain), Gould, Barker, Hall and Colver. The other team was made up of Pillsbury (captain), Tilton, Bell, Hann, and Wilson. The team captained by Boutwell won by about half a lap in very fast time.

Summary:

25-yd. dash—1st heat, won by Butler; 2nd heat, won by Barker; 3rd heat, won by Pillsbury; 4th heat, won by Boutwell; final heat, won by Barker; second, Pillsbury.

25-yd. low hurdles—1st heat, won by Hall; 2nd heat, won by Smith; 3rd heat, won by Tilton; 4th heat, won by Pillsbury. Final heat, won by Smith; second, Tilton.

High Dive—Butler and Tilton tied. Height, 6 ft. 2 in.

Spring Board High Jump—Won by Boutwell. Second, Colver and Clarke tied. Height, 6.6.

**INQUIRY**

The regular meeting of the Society of Inquiry was held on Sunday evening in the Archaeology Building. Dr. Garland, a prominent physician of Boston, was the speaker, and he addressed the meeting on the life and work of Pasteur, the man who, by his labor and effort, has completely revolutionized the medical ideas and practices of the present day. Pasteur was a pioneer in the experiments involving the theory that germs were the basis of disease and although he had many discouraging times, he finally brought out the discoveries which had thus far baffled the scientists of the day. His

greatest accomplishment, however, was his discovery of a cure for hydrophobia which he finally hit upon. This work took him fully five years to complete, and involved many difficulties which were only overcome by his own absolute faith in his ultimate success.

Pasteur first used his cure on animals, principally dogs, and was soon prevailed upon to attempt to save the life of a human being. He was very successful, and from then on the theory was put into world wide practice. Pasteur died at the age of 73 a penniless man, for he was always working for others and never considered his labors from a financial point of view.

## THE ANDOVER PRESS

Wednesday, March 10, 1909

In spite of all that has been said regarding the custom of leaving chapel by classes, there is still much more room for improvement. This matter has been emphasized by the Student Council and others two or three times, seemingly without effect. If the students themselves realized what a confused appearance is presented by a pell-mell rush for the door at the close of the chapel exercises, we believe that conditions would be bettered. Many of our visitors receive their only impression of the school as a whole from the hasty glimpse which they gain at a chapel service, which adds still another argument against the "after chapel rush". Leaving the chapel by classes is an old custom, which should be upheld, and we trust that the undergraduates will remedy this matter without any further suggestions.

### PHILO

The regular meeting of Philo will be held on Friday evening and the following program will take place. The topics of the week will be given by Coffin, and Kugelmann will deliver an extemporaneous address. The question for debate is as follows: "Resolved, That paper money is better currency than coin."

The affirmative will be supported by Klingbeil and Beebe, while Woodward and E. H. Williams will uphold the negative.

Those intending to try for this prize will kindly begin immediately, and hand in their contributions as soon as possible. These grinds must be handed to J. R. Shuman at Mrs. Waterbury's.

### COMMUNICATION

*The Editors of The Phillipian:*—

I wish to say a few words in regard to the Andover-Exeter debate, which is to take place sometime during the spring term. The trials for the Andover team are to be held on the twenty-sixth of this month, that is, sixteen days from the present date. This leaves sufficient time for preparation, and it is earnestly hoped that candidates will take advantage of this opportunity, in order that as good a showing as possible may be made. In the trials for the Forum debating team there were but four candidates, an unusually poor showing. In the Philo trials matters were not much better there being but five candidates. It is to be hoped that better spirit than this will be shown in the trials for the Exeter debate. Out of a school of four hundred and eighty men, there is no reason why there should not be at least fifteen or twenty candidates. The question has been chosen with great care, and as the candidates may choose either side that they wish, better results should be obtained than if contestants were limited to one side of the question. There is one mistaken idea which I wish to correct in closing, namely, the idea that to be a candidate for the Academy debating team a fellow must be a member of either Philo or Forum. This is *not* the case; any and every member of the school is eligible for the Academy team, and it is hoped that there will be a larger number of candidates this year than there have been heretofore. The question may be found on another page of THE PHILLIPIAN and any further information in regard to the matter may be obtained from either the president or secretary of the Debating Union.

**WITH THE COLLEGES**

Chicago University gets another million from Mr. Rockefeller, the income to be used for general expenses. He has also given \$500,000 toward the Harper Memorial Library, and offers to treble all other subscriptions to this fund. His total gifts to this University amount to twenty-four million dollars.

In a recent swimming contest held at Princeton, E. P. Denniston broke the intercollegiate 50 yard record. The time was 25 2-5 seconds.

Soldiers' Field, Harvard University's athletic grounds at Cambridge, was chosen as the place for the annual intercollegiate track and field meet this spring at a meeting at the Waldorf-Astoria Hotel in New York of the intercollegiate association of amateur athletes of America. This and the other business of the meeting was transacted by unanimous vote, showing an entire absence of factional strife. Harvard, Yale, Princeton, Pennsylvania, Dartmouth, Columbia, Brown, Amherst, Michigan, Syracuse, Fordham and Stevens Institute were represented. The Mass. Institute of Technology, the University of Virginia and Bowdoin College were admitted as new members of the association. The following officers were unanimously elected for the coming year: President, Harry E. Hill of Columbia; vice-presidents, W. W. Porter, Jr., of Syracuse and G. T. Burns of Dartmouth; secretary, A. J. H. McGrath of New York University; treasurer, H. K. Gilmore of Princeton.

Since the Harvard hockey team has won the championship, the insignia will consist of a red "H" and crossed sticks on a white sweater. Thirteen fellows won this insignia.

**DEBATING TEAM TRIALS**

Trials for the Andover debating team will be held Friday evening, March 26th, in the lecture room of the Archaeology Building. The question for debate will be, "Resolved, That the direct nomination for office by the party, is superior to the present system of caucus and convention, and should be adopted in Massachusetts." Either side of the question may be chosen by the candidate, and each speaker will be allowed eight minutes. The speeches will be judged by members of the faculty. No regular meeting of Forum or Philo will be held on that evening.

These trials are open to all members of the school, and the committee urges everyone with any ability to try for the team.

**FORUM**

The regular meeting of Forum will be held Friday evening in the Archaeology Building. The question for debate will be, "Resolved, That the cott is the proper policy for organized labor." The affirmative will be upheld by Gould and Harrington, while Mann and Pratt will speak for the negative. A declamation will be delivered by Hartwell, and topics of the week by Schofield. The select reading will be given by Ogden, while Goodell will deliver an address. Greely will render the extempore.

**ANOTHER OPEN MEET**

On Saturday afternoon another open meet will be held at the gymnasium between four and five o'clock, directly after baseball practice. The events which are to be contested, are open to all members of the school, and if any records are broken, the name of the successful contestant will be placed on the shields on the walls around the Gym.

The following events will be run off:  
Bar Vault.  
Quarter Mile against time.  
Standing High.  
Three Standing Broad Jumps.

**THE NEW ORGAN**

Work on the new organ is to be pushed rapidly and it is expected that the instrument will be in place and ready for use by commencement time. The trustees have approved the general plans suggested by the architect and organ builder who have recently made a careful study of the chapel with reference to installing the organ in the most effective way. According to these plans the new instrument will be divided into two parts. The larger, or grand organ, will be located directly behind the pulpit; the smaller, or swell organ, will be placed about where the present organ is situated though somewhat nearer the main room. The latter will be of special service to the choir, while the former will be used to furnish the volume and strength needed to inspire good congregational singing. The present architectural setting of the pulpit will be changed materially. The carved woodwork and cushions back of the pulpit will be removed and the organ pipes and necessary ground-work will form the background. The pillars and carved wood work in the arch in front of the present organ will also be removed thus preventing the old and serious obstruction to the sound.

The above plans are of a general nature only. Definite specifications will at once be prepared by Mr. Guy Lowell, the architect, of Boston. The organ itself will probably be built by the Hall Organ Company of New Haven, Conn.

When CROSS first lined up his team, it was a trifle weak. Could now and then make only an end play. But with GOOD COAL and careful drivers, he is now doing some brilliant centre plays. For Coal see him.
