PHILLIPS ACADEMY ANDOVER. MASS., WEDNESDAY OCTOBER 19, 1910

## TRUSTEE'S MEETING

Plans for New Dormitory Approved. Committee on Memorials Appointed. Officers of the Board Reelected

The regular fall meeting of the Trustees of the Academy was held in Andover on Tuesday evening of the current week. The Andover meeting represents a new departure in the policy of the Board, as the meetings heretofore have regularly been held in Boston, with the exception of the meeting of commencement week. Hereafter it is planned to hold at least three, and perhaps all four, of the quarterly meetings of the Board in Andover. In this way it is felt that the relations between the Trustees, the Faculty, and the student body will be made much closer, with distinct advantage to all concerned.

At yesterday's meeting all of the members were present, with the exception of Mr. Knapp, who is in Europe, and Mr. Stunson, whose e-ampaign for Governor of New York State made it impossible for him to attend. The members reached Andover düring the afternoon and spent several hours inspecting the school property, and especially the latest acquisition—Williams Hall. They dined together at the Dining Hall, the meeting being held later at the Principal's office. Those who were present were Mr. Alfred L. Ripley, President of the Board; Judge John A. Aiken; Professor James Hardy Ropes of Cambridge; Mr. Clarence Morgan; Professor Clifford H. Moore of Cambridge; Elias B. Bishop; Dr. Fred T. Murphy: Mr. James C. Sawyer, Treasurer; and Principal Stearns. Among the items of business the question of limiting the size of the relation.

question of limiting the size of the school, and the best methods by which to accomplish this result, were carefully discussed, but no definite action was taken.

The plans submitted recently by the special committee on a new dormitory were formally approved, and the Trustees expressed themselves in favor of locating this building, when the necessary funds shall have been raised, at the southeast corner of the Seminary campus, thereby practically extending the present Seminary row. For the benefit of new men we give below a brief summary of the methods to be employed in financing the building. Although no very active campaign has yet been undertaken in behalf, of this project, \$22, 000 of the amount needed have already been subscribed. It is hoped that ground can be broken before next spring.

The estimated cost of the building complete, as designed by Mr. Guy Lowell of Boston, is \$50,000.00, and it will be financed in the following manner:

The committee of the Trustees will sell one hundred \$500.00 twenty year, 4 1-2 per cent notes, guaranteed by the Trustees, as to principal and interest, and callable in whole or in part at par at any interest period on thirty days' notice, the interest being payable semi-annually on January 1st and July 1st. The Trustees will redeem at least two thousand dollars (four notes) of the principal each year, beginning January 1, 1913. In case the notes cannot be purchased at par, they will be drawn by lot. Each note will be numbered and registered so that checks for interest may be mailed by the Academy Treasurer to the registered owners. This manner of financing the dor-

This manner of financing the dormitory will enable many of the young graduates, who are not in a position to make a direct gift of cash, to render important aid to the Academy.

### Hockey Manager Candidates

Owing to the non-return of Ottley, the manager-elect of this year's hockey team, the following men are announced as candidates for that office: N. Williams, Sheffield, Harlow.

The election will be held Friday morning after chapel.

### Tennis

Stuart Freeman. 1912, has won the tennis tournament by defeating Fox, 6-2, 8-6, and will receive his class numerals.

The tennis doubles have not been played off as quickly as they should have been, and it is desired that the tournament may be finished as soon as possible. So all doubles should be played immedi-

ately.

The first issue of the *Mirror* is out today and copies will be distributed to all subscribers this afternoon. Mr. Stackpole, John M. McHatton, John F. Dryden, 2nd, Harold R. Kaufman, and J. C. O'Brien, Jr., are the contributors to this issue. It is hoped that there will be a much greater number writing for the next issue than have been for the present one, in order that the board may have a large amount of material to select from, and thus make the magazine more interesting to everyone.

## SECOND TEAM WINS Lawrence High Defeated in a Hard Game by the Score of II to o

Last Saturday the second team defeated Lawrence High, 11 to 0. The game was played in the rain, thus greatly hindering the playing by its effect upon the ball. In spite of this, however, French's forward passes, which were made use of throughout the game, were nearly always successful. Chatterton and Large showed great ability in catching the passes and in getting down the field under punts. Dale played the star game for Lawrence, while Gault of the Andover second backs proved very effectual in line plunges and succeeded in carrying the ball across Lawrence's goal line for both touchdowns. During the first period the teams seemed very closely matched, Lawrence succeeding in breaking through the lines for several good gains. During the second period Lawrence punted three times, twice the punts being blocked by Chatterton. Although the playing throughout this period was very near Lawrence's goal, Andover second could not gain possesion of the ball. During the third period Andover rushed the ball down the field by a series of passes, finally putting Gault over the line for the first touchdown. French succeeded in kicking the goal. The second touchdown was also made by Gault during the last period, but French failed to kick the goal. The lineup:

Archaeology Notes

Mr. Moorehead went to Lake Mohonk, New York, to attend the annual conference of Friends of the Indians and Dependent Peoples. These conferences were inaugurated by Hon. Albert K. Smiley over thirty years ago and have gained in influence and importance until they are now attended by several hundred persons from all over the United States. Speakers come from the Philippines, Hawaii, and various Indian reservations. At this particular meeting there will be a full discussion of the condition of the Minnesota Indians, which were found by Mr. Moorehead to have been swindled out of 220,000 acres of land, and as a result were reduced to abject poverty.

The regular meeting of the Society of Inquiry was held Sunday evening i. the Lecture Room of the Archaeology Building. The meeting was addressed by Dr. Barbour of New York City, who is the international secretary of the Y. M. C. A. Dr. Barbour made a very strong but informal address to the fellows on "Is Life Worth While?" He said that if a man wanted to have his life seem worth living, he must have three essential elements in his character: a set purpose, a devotion to commonplace duties, and a desire to serve his fellowmen. He then spoke briefly on each of these topics, illustrating his point as he went along, with examples from life. After Dr. Barbour's remarks, President Donaldson stated that all the men whose names were proposed for membership in the society had been passed on by the committee and were now members. An election of the representative for the Student Council was held, N. V. Donaldson being chosen.
