Fancy diving—Fisher, Morton.

Plunge—Taylor, Tilton.

The Williams Hall water polo team has not as yet been decided upon.

Grill Notice

On Wednesday and Saturday the Grill will serve special dishes which are already prepared. They will be ready at 11.30 Wednesday and Saturday mornings, so fellows who are going home and want to eat before the regular train, can do so. After 11.30 these specials will be ready so that they can be served at a moment's notice. Special dishes, that is, besides the regular bill of fare, will also be served on other days in the week.

History "Make-up"

Mr. Farnsworth will give a make-up for all who failed in Greek History in the fall term. This make-up will be held Tuesday night, February 4, in Pearson A.

PHILO

The regular meeting of Philo was held last evening. The Topics of the Week were given by Woodward, and Briggs read a very interesting interview with Mr. Edison, that has been published.

The subject for debate was, "Resolved, That American coastwise ships should be charged no toll for passage through the Panama Canal." The vote on the merits of the question was unanimous in favor of the negative, and the vote on the merits of the argument favored the affirmative. The affirmative was led by Tew, with Emerson assistant, and the negative by Blackall, with Fuller assistant.

Wallace gave a very interesting extempore about the New York police force.

The society voted to give a vaudeville entertainment Friday evening, March 7, and Feeney was elected to have charge of it.

English Exam.

Mr. Pifer will give an examination on "David Copperfield" on Monday at twelve o'clock.

Latin Exams

Mr. Forbes divisions in Latin I reciting at 8 and 5 will have an examination Monday.

Bible "Make-ups"

The postponed "make-up" examination in all Bible courses will be held next Tuesday evening at 7 o'clock in Pearson G.

Snow Fight

Adams Hall routed Bishop Hall in a snowball fight Wednesday afternoon. The Bishop fellows were defeated and driven into their dormitory by the heavy fusillade of snowballs.

Hockey Men to Take Gym

Because of the warm weather it has been decided to have those formerly out for hockey take the regular gym work. All who are out for hockey and who have not yet signed up for gym, should see Dr. Page at once. If there is any ice, excuses from gym work can be secured.

NEW BULLETIN OUT

January Issue Contains Much of Interest

The second issue of the Phillips bulletin is now being mailed to all the alumni of the school.

This number is an especially good one and contains many cuts and articles that will be of much interest to the alumni.

The first page of the book is given over to a picture of this year's faculty. The picture is very good and all the faces can be seen clearly.

Opposite page eight is a reproduction of the picture Mr. Sherman took in chapel a few weeks ago. This cut shows the interior of the chapel very well, but the faces of the fellows are for the most part blurred.

The other cuts in the book are pictures of the new Infirmary, a play in the Exeter game, a picture of the cross country meet, and a picture of the coaches of last year's team.

There are many interesting editorials about the many activities of the school. There are short articles about debating, Dramatic Club, Harvard Club, Dartmouth Club, Deutscher Verein, Lawrence work, and school calendar.

The honor list for the fall term is printed and also the school directory. There is a review of the athletics at the school.

The back pages are taken up by personals, a list of deaths in the last year, and obituaries.

Organ Recital of Last Wednesday

Mr. Moog, director of music in Smith College, gave a delightful organ recital in the Academy Chapel last Wednesday. The selections, which were chosen from both ancient and modern composers, were rendered with perfect understanding. The program was as follows:

- A major Sonata
 - Fantasia
 - Capriccio
 - Adagio from String Quartet
 - op. 9, No. 5
 - Prelude
 - Cantilene
 - Menuet
 - Finale from Second Suite
- Rheinberger
Haydn
Picrue
Faulkes
Boellmann

FORUM

The meeting of Forum last evening was called promptly at 7.15. The Select Reading was well rendered by Block, who read a story on the intricacies of banking. The question for debate was, "Resolved, That a money trust exists which is injurious to the nation." The affirmative was upheld by Ferguson and Hartigan, and Greene nobly defended the negative alone, owing to the absence of Tesch. The president omitted the vote on the argument owing to the lack of time. Hatch gave an entertaining extempore. After a lengthy discussion, it was voted to begin the meetings at eight o'clock and continue them until after nine. It was decided to petition the faculty for this extension of the time. The following questions were approved by the society for the remaining debates of this term:

Feb. 7. Resolved, That Turkey should yield to the demands of the allies.

Feb. 14. Resolved, That a Progressive victory in the next presidential election would be for the best interests of the United State.

Feb. 21. Resolved, That the United States should intervene in the Mexican Revolution.

Mar. 7. Resolved, That labor unions are on the whole prejudiced to the best interests of the workingman.

Mar. 14. Resolved, That a high tariff raises wages.

Communion Service

Tomorrow morning after the regular service, the Communion service for the winter term will be held. New members of the church will be formally received. The invitation to this service includes all who desire to join, whether members or any church or not.

Hockey Game

Adams Hall was defeated in a very exciting game of hockey on Pumps Pond last Wednesday afternoon. The play was fast, in spite of the heavy snow on the ice. The Adams Hall team, though light, put up a good defense. The Bishop Hall team ran up a score of six points against one. Most of the scoring was done in the last half.

HARVARD SCHEDULE

Andover Replaces Exeter as Harvard's Opponent

The Harvard Varsity baseball schedule, which was passed by the athletic committee at its meeting this week, provides for 29 games, with a possibility of one more in case of a tie in the first two games with Yale.

It is the longest schedule laid out for a Crimson nine in several years. Last year only 23 games were played. The principal change is the addition of three games to the Southern trip in the Easter recess, when six games will be played.

Harvard will play its usual three game series with Yale, and two games each with Holy Cross, Brown and the University of Pennsylvania. The opening game, as usual, is with the Red Sox at Fenway Park, scheduled for April 8.

The new opponents on the schedule are Johns Hopkins, the Baltimore Orioles and Annapolis, to be played on the Southern trip, and Andover, which is substituted for Exeter as an opponent, will play the Crimson at Cambridge Saturday, May 31, the day after the Andover-Exeter track meet.

Dartmouth is down for a game in Cambridge on May 28. Harvard has left the Hanover team off its track schedule this spring and has taken Cornell instead, but relations in baseball will continue as heretofore.

The schedule follows:

- Apr. 8 Red Sox at Boston.
- Apr. 12. Johns Hopkins at Baltimore.
- Apr. 14. Baltimore at Baltimore.
- Apr. 16. Annapolis at Annapolis.
- Apr. 17. Georgetown at Washington.
- Apr. 18. Columbia at New York.
- Apr. 19. West Point at West Point.
- Apr. 22. Bowdoin.
- Apr. 24. Maine.
- Apr. 26. Colby.
- Apr. 29. Bates.
- May 1. Vermont.
- May 3. Amherst.
- May 6. Lafayette.
- May 8. Catholic University.
- May 10. Holy Cross at Worcester.
- May 14. Syracuse.

There is every reason for supporting the Student Council in its position in regard to the sale of tobacco in the Grill. In the first place, there is the legal side of the question. A person may say: "What does it matter if I do this, even if it is against the law?" But what would happen if everyone took this attitude, not only in regard to this particular law, but in regard to other laws also. Any sane man can see that such a state of affairs would lead, to put it mildly, to the most undesirable conditions. If we are not going to obey the law, what are we going to obey?

In the next place, it is for the advantage of those over eighteen to make the younger fellows conform to the law for purely selfish reasons. The school authorities have given us the grill and have let the fellows manage it through the Student Council. The rules adopted by that body, which is composed of representative Andover men, should in themselves command obedience and respect. But if this is not enough, the school authorities will have to interfere, for they cannot allow the law to be continually broken, and take away from the fellows the privilege of buying tobacco at the Grill, a privilege which has been given to them entirely for their own benefit and convenience. If the fellows under eighteen break this law, they will act most foolishly, for by so doing they will probably end the sale of tobacco altogether.

Finally, school spirit, for which Andover is justly proud, should keep every true Andover man from doing anything which will bring the name of the school into disrepute. For if this school is known to outsiders to be breaking the laws of the state, even though in a small detail, the standing of the school in their eyes must suffer.

Exeter Football Schedule

Manager Adams has announced the following football games for the season of 1913:

- Sept. 27. Cushing Academy.
- Oct. 4. Dartmouth Freshmen.
- Oct. 11. Bates College.
- Oct. 18. Yale Freshmen.
- Oct. 25. Harvard Freshmen.
- Nov. 1. Princeton Freshmen.
- Nov. 8. Andover.

All games are to be played at home except the Yale Freshmen at New Haven and the Harvard Freshmen at Cambridge.

Music Notes

The prelude at the service tomorrow morning will be Mendelssohn's Prelude in G Major. The choir will sing the choral "Come Jesus, my Master, abide Thou with me" (So nimm dein meine Hande), music by Silcher. At vespers the prelude will be an Andante by Guilment. The choir will sing Spintler's "In Heavenly Love Abiding." The week-day preludes will be compositions of Guilment.

The organ recital next Wednesday afternoon at five o'clock will be an all-Mendelssohn recital consisting of the following numbers:

- Prelude and Fugue in C Min.
- Prelude in D Min.
- Finale from the 1st Sonata
- Sonata No. 6 (Vater unser im Himmelreich)

Inquiry Nominations

The constitution of the Society of Inquiry requires that a committee of three meet and make a list of nominations for officers of the Society for the next half year. This list is to be posted for one week and further nominations may be made by the student body.

The nominating committee has met and nominated the following as officers for the next half year:

- J. S. Wiley, president.
- J. S. Nickum, vice-president.
- A. B. Gile, secretary.
- R. S. Cook, treasurer.

Any further nominations from students should be handed to either A. Davison or N. Boynton, Jr., by Tuesday night.

Communication

To the Editors of the *Phillipian*:

The fellows have been careless in the matter of contributing to the support of the Lawrence work, and as a result the amount of money from the collections has fallen below the operating expenses. Only a small proportion of the fellows are giving what they should, and if the work is to be kept up, must give. The sum asked each Sunday of each fellow, ten cents, is surely not too large. If, now that it has been brought up, everyone will see that this applies not to the other fellow, but to him, there is no doubt that this work which the school has voted to carry on and support will be continued in the future just as successfully as it has gone on in the past.

(Signed)

TREASURER

Communication

A few words in defense of the game of basketball seem, particularly at this time of the year, to be most fitting and appropriate. Warm weather has taken away all hope of seeing any more good hockey games, and we are naturally looking about for some other sport.

It appears to me that no better game than basketball could be provided for an indoor winter sport which would not be affected by the weather. In former years hockey and basketball, it may be said were the two sports for the winter term. Now that hockey is almost impossible, why suppress that which is possible?

To make this interesting it would not be necessary to have games with other schools. Surely class games in basketball would arouse just as much enthusiasm as class games in baseball and football have. In short, why should we suppress a game which is thorough, healthful and enjoyable?

It is to be hoped that those fellows who are interested in the game will get together and make some move in this matter. Combined action on the part of the interested men is the only way in which the game can be restored.

Archaeology Notes

The Curator went to Yarmouth, Maine, Thursday and secured the archaeological collection of Arthur E. Marks, Esq. Mr. Marks has been some twenty years in getting together this exhibit of 2000 specimens, and all of them were found within the state of Maine. The objects are a great addition to the Department's Maine collections and now there is a larger exhibit of prehistoric life in Maine to be found in Andover than elsewhere in the United States.

The collection comprises many rare forms of gouges and pipes, as well as unknown forms of implements. All are made of hard slate, granite, limestone or the Kineo flint.

Mr. Marks was with the Maine survey some time during the past summer, and took great interest in the work of the Andover students who accompanied the Curator to Maine. He decided to sell his collection and gave Phillips Academy the first chance.

The Curator has heard of other places in the state in which to explore, and an interesting and profitable summer's work is anticipated. Whether Andover students will accompany the expedition next June, is not yet fully decided.

New Yale Baseball System

At a meeting of the University baseball squad on Friday evening, January 17, the training season of the Yale 1913 baseball team was formerly begun. The system under which baseball is to be played at Yale this year is quite radically different from that which former teams have employed. Instead of starting out with a large University squad at the beginning of the spring practice, the first squad will consist of about thirty men, selected from among those who in the fall practice proved themselves to be of first class ability. The advantage of this method is that the best players in the University may be given more individual attention, and that no useless work is expended upon men who have no chance for the team.

On the other hand, a better chance is given the other men who desire to try for teams. Instead of being dropped from the University squad after the first few days, and given no more encouragement, they are at the first of the season organized into a class squad. This is divided into class teams, which will play a regular schedule of games between themselves, beginning shortly after Easter and lasting until the end of May. The services of an experienced coach to work with the class team squad and take full charge of it have been secured. This new coach is Mr. A. E. B. Tommers, Yale 1911 S.

This new system will be greatly aided by the addition of two or three new baseball diamonds, to be used especially for class team games. During the early spring the University squad will use the new baseball cage in the gymnasium, which has recently been completed.

Football Review

The close of the recent football season affords a convenient occasion for a review. For forty-four years football has been played. The first game took place in 1869 when Princeton and Rutgers played the first contest of intercollegiate competitor in this sport, uled either in the United States or in England. Three years later, Yale came forward as an intercollegiate, competitor in this sport Harvard starting in 1874 and Pennsylvania in 1876.

A complete summary of the games of these four institutions with all competitors for these forty-

three years is as follows:

	Games	Vict's	Def'ts	Ties
Harvard	342	206	47	9
Penn.	393	289	92	12
Princeton	333	286	35	12
Yale	366	329	21	16

From 1869 to 1876 the game was in the process of forming and intercollegiate relationships in the process of establishment. From 1876 to 1890 the game was controlled by the old American Intercollegiate Football Association, which conducted an orderly schedule of games and awarded an official championship. From 1890 down to the present time the game has been characterized by independent relationships.

HERE'S A REFRESHING AID TO STUDY AND SPORT

Keep a package of "The Beneficial Pastime" always in your pocket. It makes study seem easier. It brightens teeth, sharpens appetite, and strengthens digestion.

While you are exercising and enjoying the fragrant juice of fresh crushed mint leaves, your mouth is kept moist and your lips are kept closed, so that you breathe properly.

And the flavor lasts longer than you can chew!

Chew it all day today, tomorrow, and the next day.

Chew it over Andover, Andover again.

You can't chew out that fascinating flavor of the fresh mint leaves. It lasts, and lasts, and lasts.
