Inter-Squad Baseball Game

After drill last Wednesday afternoon, Warren's team defeated Brennan's 6 to 5, in a baseball game between the members of the varsity squad, held on the old campus. Owing to the lack of practice, the game was rather ragged in places but as a whole was much better than might be expected. The first inning was the most profitable for Warren's team.

NAVAL HOSPITALS NEED MEN

2000 Men Wanted Immediately.—Good Opportunity to get to Sea Soon

The Phillipian has been requested by the Medical Department of the Navy to aid in the recruiting of men for the Naval Hospital Reserve Corps. This department of the Navy has immediate need of two thousand men between the ages of eighteen and twenty-five to assist the doctors in Naval Hospitals at sea on the vessels of the Navy.

The life offers good pay, a variety of work, and an opportunity to study and serve the country.

EXPERIENCES OF A P. A. GRADUATE IN AMBULANCE CORPS

The following is an account of the experiences of Mr. W. G. Rice, Jr., P. A. '10, Harvard '14, who was a member of the American Ambulance Corps in France and who was stationed at the Verdun front for three months. What Mr. Rice has to say about his experiences there should be of special interest to the school at this time and particularly to those who are intending to go to France with the Phillips Academy Unit.

My close friend and class mate, both in Phillips Academy and in Harvard College, John Radford Abbot, and I sailed from New York on July 8, 1916, on the Steamship "Rochambeau." At that time, she had one gun, a French Seventy-five, mounted aft. Since then, she has won distinction as the first boat which, having guns mounted fore, was given clearance papers from an American port. But during our voyage we had no need of guns and the only time that the firing crew tried its marksmanship was on July 14, to salute the French national holiday.

On arriving at Bordeaux, those of the passengers who were going into the service of the American Ambulance found large red and yellow paper tickets giving free railway transportation to Paris awaiting them. The trip by railroad, through Aquitaine and Touraine was quite as uneventful as the sea voyage. In the country we rarely saw Frenchmen of military age except soldiers at home on leave. The work in those beautiful rich fields was being carried on by women, old men, and children. Occasionally we saw German prisoners building roads or doing agricultural work. At all the principal stations volunteers would come through the train soliciting small contributions to fill their Red Cross miteboxes.

I well remember our arrival in Paris just about sunset. The city seemed wonderfully active and the effects of war were at first hardly visible. After nightfall, however, the streets were quiet and comparatively dark. Though theaters were giving performances several nights of the week, the restaurants all closed at 9 o'clock, and later in the year, practically all shops were ordered to close soon after dark in order to decrease the use of light and so the consumption of coal. The American Ambulance, at Neuilly, where I stayed during the two weeks

More Heelers Needed

At present there are only five men heeling for the Phillipian and at least three more are needed for this term's competition. This is a good chance for men who are up in the studies, especially those in the classes of 1919 and 1920, to get out and do something in school. It also offers an excellent chance for new men to meet the rest of the fellows in school. Think it over.

FRENCH PUSH BACK GERMANS IN ARGONNE

Nivelle's Forces in New Drive Take Second Line Trenches. Berlin Admits Retreat

Total of Teuton Prisoners Captured This Week Stands At 19,000. One Hundred Guns Taken.

In a new offensive of unprecedented fury, the French troops have entered the second German line in the Argonne Forest region. German counter attacks on the Vauclerc plateau have been repulsed with heavy losses to the attacking forces. The troops under General Nivelle have made steady progress in driving back the Germans in the district of Soissons and Rheims.

Northeast of Soissons, the French have occupied the village of Saneg and have continued their march to the Arsne. The French artillery has been playing a great part in the recent French advances.

Berlin has admitted the abandonment by the Germans of the bank of the River Arne between Conde and Soupir, but reports that the French "follow hesitatingly." Berlin adds that new French attacks in the Champagne region have been repulsed.

There was little activity on the battle line in Northern France, and London reports no further successes by the British in that region.

In Palestine and Mesopotamia, north of Bagdad, the British report very pronounced successes. In Palestine the British have occupied Turkish positions along of 6½ miles.

Draft Bill in Senate To-day

With the introduction of the draft bill into the Senate to-day, the first real fight over the war plan mapped out by the Administration will begin. Seven of the seventeen members of the Senate military committee have announced themselves to be in favor of the volunteer system instead of the proposal of the bill to raise an army by selective draft. The bill will not be formally voted upon until next week.

Efforts will be made by the dissenting members to add to the general staff plan, a provision authorizing a call for volunteers first.

The House military committee will to-morrow go through the formality of approving the measure approved of by the majority; namely, of giving the volunteer system a trial before draft is resorted to.

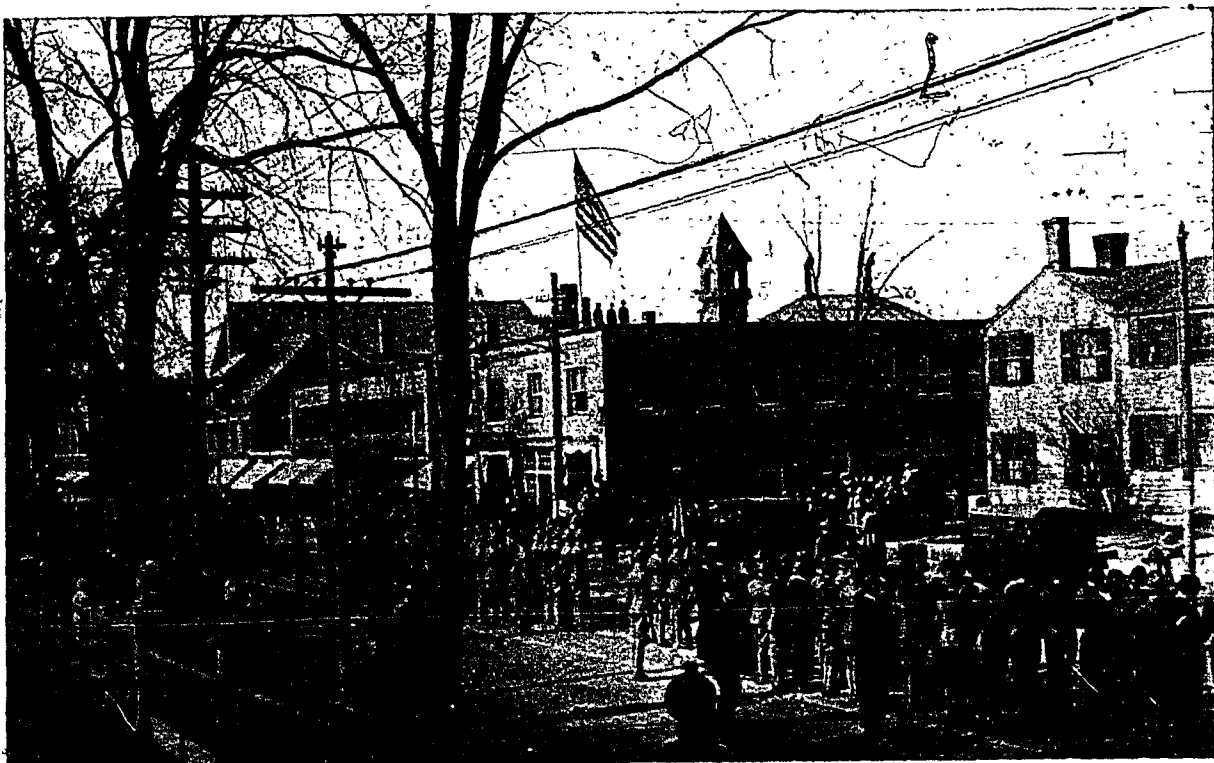

Military Notes

Several fellows have been wearing their military suits in part and this is directly disobeying all military rules. All cadets must either be in full uniform or else in civilian dress.

The boys have been asked not to wear their uniforms Sunday and especially to the Sunday morning services in chapel.

Officers only are permitted to wear leather puttees.

The Dartmouth American Field Ambulance Corps of twenty-five men will leave for France in two or three weeks.

Stick to Your Job

Now, more than ever before, this country needs strong, virile men to do their duty in making it the greatest country in the world.

Now how can we best serve our government? That is the question that not only the members of this school are asking but every red-blooded man in America is thinking of. This government is entering the war better prepared materially than any government with the exception of Germany. But even yet, the government is swamped with the many things that need to be done before actual work can be commenced. Some one has said that "They also serve who only stand and wait." Each fellow in this school is thinking what he should do. Remember that the thing to do is to work as hard as possible in preparing oneself for any eventuality. The thing to do just now is to stick to your job and wait for the call from the government. If we are in school, let us get our studies to the best of our ability, and let us get as much as we can from the military work being taught us. The watchword of the hour is "Stick to your job."

Philo-School Debate

The Philo-School debate this year should prove to be of great interest to all. The subject is: Resolved, That the National Prohibition amendment should be passed by the next session of Congress.

This subject has been one of much comment for many years and it appears that sooner or later the time is coming when there will be Prohibition throughout the entire country. The debate will probably be held in two weeks' time. This year there will be awarded three prizes of \$10 each.

Class Elections

E. H. Hills of New York City was elected president of 1920 last Thursday. This is Hill's first year in school. Henry Pole of Hot Springs, Va., was elected vice-president of the class.

H. T. Herr, Jr., of Pittsburgh, Pa., was elected president at a meeting of the upper middle class held last Wednesday. Herr played on the football team this year at right guard. He is also adjutant of the Cadet Corps. No other elections have as yet been held. As Herr is leaving school it will be necessary to hold a new election for this office.

At meetings of the senior class held this week, W. W. Russell of Oak Hill, N. B., Canada, was elected president. Russell came to Andover in 1915. He was captain of the football team last fall, also captain of the wrestling team this winter.

D. C. Dines of Denver, Colorado, was elected vice-president. He entered school in 1914 and is manager of the track team.

C. H. Bradley, Jr., of Dubuque, Iowa, was elected secretary. Bradley entered school in the fall of 1915 and played on the tennis team.

Oldest Living Graduate

Daniel Saunders, the oldest graduate of Phillips Andover Academy, died yesterday at his home, at the age of ninety-five years. He was born on October 6, 1822, in the Old South parish, Andover, and his parents' families were connected closely with the early days of this country's history, he being descended on both sides from the Pilgrims and the Puritans. He was brought up in this town and entered the English Academy in 1835; Two years later he entered Phillips Academy, and was in the class of 1842. He entered Harvard Law School in 1842, was graduated in 1844, and in 1849 he was permitted to practice before the Supreme Court of the United States.

Last spring Mr. Saunders was at Andover and gave a very impressive speech at the Commencement Exercises.

Mr. Saunders, home was in Lawrence.

Notices

Any men who are looking for a canvassing job during the summer on a straight commission should see Mr. Quinby at the Self Help Bureau in the basement of the Administration Building.

An Art Exhibition of paintings and photographs will be held shortly at the library. This exhibit will be for the students and original paintings and photographs would be greatly appreciated. These should be handed in to Miss Frost at the Library or to Wright, at Phillips 14.

Rifle Range

Owing to the military drill and several other interests, the range has not been open as yet this term, but it will be open all this afternoon and evening. The range has six fine targets this year for the students to practice on before going into the out-door range at Frye Village. No men will be allowed to go over to the big range until they have qualified on the indoor range.

Inquiry

The first meeting of the Society of Inquiry this term, will be held to-morrow evening at the Peabody House at 6.45. This meeting will be an open one at which the fellows will talk over their every day questions and interests.

Chapel Speaker To-morrow

The chapel speaker tomorrow morning will be Dr. Clarence D. Ussher, lately of Van, Turkey-in-Asia. Dr. Ussher is a physician-missionary among the Armenians and will relate some of his experiences in connection with the deportation and massacre of those people. He witnessed the release of Turkish criminals from prisons that they might pillage Armenian villages and put the inhabitants to the sword, the bombardment of his hospital, in spite of the American flag that flew above it, and the typhus epidemic that broke out after the massacre had killed thousands, including Mrs. Ussher.

Dr. Ussher is now speaking in various parts of the country. His story is told with much effectiveness and is extremely impressive.

Dr. Stearns will speak at the vesper service Sunday afternoon.

H. B. Thomas, ex '16, Yale Sheff '18, who has been elected captain of the Yale wrestling team for next year, has gone to Newport to train for the Coast Defense Service. He has also been elected a member of the Aurelian society at Yale.

Walton Smith '16, Yale Sheff '19, has been elected to Franklin Hall.

Parker Allen '14, Yale '18, has joined the Reserve Officer's Training Corps of Yale. Allen, when in Andover, was captain of the swimming team during his senior year.

Middleton DeCamp '14, Yale '18, is also in the Reserve Officer's Training Corps at New Haven.

which I spent in getting papers and equipment in Paris has so often been described by persons far more familiar with its admirable work than I, that I will merely speak of a few impressions of those days in Paris that I retain vividly.

A squad of American ambulance drivers attached to the American Ambulance meet all the trains of wounded that come into the capital. As soon as I got my uniform, I used to go with this Paris squad to the railway station of LaChapelle, formerly a freight station, now converted into a temporary hospital for the incoming wounded, and there help unload from the sanitary trains the men who had been sent into Paris for treatment. American volunteers not only unload all the wounded coming into Paris and load them into the ambulances which take them to the various hospitals, but they also are the drivers of about half of these ambulances. It was there that I first appreciated the fortitude and gentleness of the wounded. I had often heard of their wonderful bravery, not only in the battle but through the suffering which succeeds the battle, but now for the first time I met and felt it.

I remember going to see the showing of war trophies in the Court of Les Invalides. There were exhibited machine guns, aeroplanes, cannons (marked "Ultima ratio regum") and other military apparatus taken from the Germans. Among other things there was a Fokker plane equipped with a motor made in Paris, which reminded me of the international activities of most armament manufacturers, "war scare profitters."

The American Ambulance takes care of only French wounded now, but French

wounded may be of almost any race. The poor negro devils who know no French and who know less than nothing, I suppose, or why they are fighting, were quite as gentle and as trustful of us as were the European French soldiers, and like them they always were eager for a cigarette. Many of the public buildings in France were guarded by yellow troops from French Indo-China, short fellows in olive drab who made a striking contrast with the tall blacks who also usually wore olive drab. On the streets were soldiers in a hundred different uniforms—Britains, and Russians, Serbians and Belgians, French officers dressed largely to suit their own taste, French soldiers in gray-blue, or sometimes still wearing the old red trousers. Because we wore olive drab, we were often taken for British, Russian, or Belgian soldiers, by those who did not see the "American Ambulance" on our sleeves or recognize the American coat of arms on our caps. We of the Field Service wore the insignia of the French automobile service on our collars, for during our service at the front we were part of the French army, though, having enlisted for non-combatant work, we lost none of our rights as Americans.

After two weeks I was sent out with two companions to join American Sanitary Section 1, then attached to the army of Verdun. We went by express train on the second anniversary of France's entering the War, up the valley of the Marne, where occasional signs of devastation and solitary soldiers' graves were visible from the train. At Bar-leDuc we alighted and found an ambulance sent to meet us.

A. G. SPALDING & BROS. 74 SUMMER ST., BOSTON

(Continued from Page 1)

A man enrolls for a term of four years, but in time of peace, and when no national emergency exists, may resign upon payment of a clothing gratuity. A candidate for enrollment is compelled to take an examination and is then given a provisional rating (hospital apprentice, second class; or hospital apprentice, first class) in accordance with his qualifications, determined by examination. Three months of active service during his enrollment will qualify a man for a permanent rating in his class.

Information about this department may be obtained at the Navy Recruiting Station, 146 Tremont street, Boston, or 7 Merrimack street, Lowell.

Y.M.C.A. Huts for American Troops

The Y.M.C.A. huts were a great feature with the troops at the border. The national Y.M.C.A. is now carrying out on extensive plan for similar work in the great camps for the training of our new troops that will be mobilized. Dr. John R. Wott, General Secretary of the National Y.M.C.A., has made an appeal for \$3,000,000 and over a thousand workers. There will be a hut for each brigade (about 5000 men) and five Y.M.C.A. men attached to each center. Dr. Wott hopes to raise the necessary funds during the next thirty days. It is expected that \$250,000 will be raised in Massachusetts. Any of the fellows who would like to consider engaging in the hut work are asked to see Mr. Stackpole.

New Piece by Heilner

Van Campen Heilner, ex-'18, who left school last year on account of illness, but who expects to return next year, has composed a new piece by the name of "Get Off My Foot." This new piece, which is classed as Jazz music, under which class Havanola is found, will come out on a Victor record the 28th of this month. Heilner also wrote "Under the Sea."

My friend Abbot and another fellow drove off in a car sent to meet them from Section 2, to which they were assigned, while I and my two companions bound for Section 1, motored some fifteen miles to Triacourt, where Section 1 was then resting after strenuous work at Verdun. The twenty Ford Ambulances, (gifts of American individuals, schools and relief societies) were drawn up in two rows facing each other, on either side of the drive-way in the country place of M. Poincare, the brother of the President of France. Here we camped out for a couple of weeks having nothing to do except to carry an occasional soldier to some hospital.

which scored four runs in that inning, gaining all these runs from bases on balls, while Brennan's team obtained their runs in the last few innings. There was little sensational play outside of a double play, Farrell to Gross. Few hits were obtained, the largest being two two-base hits by Devine. "Bill" Russell showed up very well on the mound, striking out nine men and giving only four men their bases on balls. Only eight innings were played on account of the lack of time.
