## BLUE NINE GAINS UNEXPECTED VICTORY

### VICTORS OVER PRINCETON IN SLOW GAME

The Andover baseball team defeated the Princeton freshmen in a long close game yesterday. The score was 8 to 7, but as the game was called at the end of the sixth inning because of lack of time, the respective merits of the two teams were not determined by it. Jackson played well for the Blue, getting three hits out of as many times at bat, and Rainmund starred for the visitors. Below is a play by play account of the game:

Muldam, first man up for Princeton, struck out and Rainmund was out, Kimball to Chapin. Biehals walked and Bennett was safe when Kimball fumbled his grounder. Merrill popped to Frank. No runs, no hits, one error.

Andover began well as Frank walked and was sacrificed to second by Jones. Chapin hit a slow ball to left for two bases, scoring Frank. Mettler sacrificed the runner to third and Batchelder walked and stole second. Jackson hit a single to Muldam, scoring both runners and stole second and third. Allen fanned. Three runs, two hits.

In the second inning Ware walked. The next batter, MacKinney flied to Mettler, and Moles walked. Cameron hit to the shortstop, who fumbled but recovered to catch Moles off second. Ware, however, scored. Muldam was out. Frank to Chapin. One run, no hits, one error.

In Andover's half of the inning, Kimball singled to right and went to second on Wing's sacrifice. Frank was out, Moles to Bennett, but Kimball advanced a base. He was left there when Jones grounded to Merrill. No runs, one hit.

The third began by Rainmund hitting to Frank. He was safe when the throw was slow. Biehals walked and Bennett fanned. Merrill hit a double to left field, scoring both runners and was forced when Ware hit to Mettler. MacKinney struck out. Two runs, two hits.

The Blue scored four runs in its half of the inning as Chapin and Mettler walked and advanced a base on a double steal. Batchelder walked and Jackson beat out an infield hit. Chapin and Mettler scored. The batter reached third on a series of errors. Batchelder scored on a passed ball. Then Allen fanned and Jackson scored on the catcher's error when Kimball hit a grounder. Wing was out, Merrill to Bennett. Kimball advanced on a passed ball, but Frank struck out. Four runs, one hit, two errors.

Princeton added a run as Moles walked an Smith batting for Cameron, struck out. Muldam walked and Rainmund hit a single, filling the bases. Biehals was out on a grounder to Chapin, but Moles scored on the play. Bennett flied to Jackson. One run, one hit.

Andover went out in order in this inning. Jones was out, Biehals to Bennett, Chapin flied to Muldam, and Mettler fanned. No runs, no hits.

In the fifth Merrill walked and stole second. Ware was out, Wing

(Continued on page 4)

## PRINCETON DELEGATES AT INQUIRY MEETING

### OFFICERS FOR NEXT YEAR ARE ANNOUNCED

Last evening in the auditorium of George Washington Hall at seven o'clock, the delegation from Princeton University was received by the Society of Inquiry. President Ogden introduced as the first speaker H. Chapman Rose, Chairman of the *Daily Princetonian* and of the Student Council, the highest honor to be attained at Princeton. In opening, Mr. Rose stated that the College and "Prep" school are fundamentally very closely connected, and that four out of five students at Princeton come from these schools. Referring to E. Martin, an Andover graduate and now editor of *Life*, he made several interesting comments on the present Younger Generation as viewed by criticizing elders. The prevailing attitude today, he stated, is to be clever — to say things that will make people laugh without giving thought to their actual value. The general theory seems to be pessimistic, critical; that nothing is worthwhile. He then turned to a proposition of considerable consequence in College. He tried to show by citing several worthy examples that the influence exerted by the College on an undergraduate is not a mere temporary feeling, but that it remains throughout his whole life. He showed what the College and all it stands for actually means to each individual personality.

The second speaker of the evening was Mr. Rudel, Chairman of the Y. M. C. A. at Princeton. He commenced by saying that inasmuch as he has specialized during the last three years on Evolution and all its more complex aspects, he would attempt to show first, what it really meant; and second, its relation to the modern beliefs of Christianity. The general opinion, he said, is that Evolution is contradictory to all Christian doctrines. In the short time allowed him to speak, of course, he could not give any lengthy discussion, but would bring out a few fundamental ideas. The world, it has been reckoned, has existed with some manner of life on it for about 600,000,000 years. This period is divided into four eras, representing the main advances in Life to its present stage, with specialized branches of all kinds of living creatures. A very important point to emphasize, he showed, was that Humans do not descend directly from the family of monkeys, but that both come from the same form of life, each advancing on an individual branch of which man has made far greater progress. In conclusion, he stated, that after studying the subject for over three years, he still maintains that Science and Evolution have destroyed none of his belief in Christianity.

At the close of the meeting President Alfred Ogden announced the officers for next year, as follows: James A. Newton, president; P. K. Allen, secretary; Andrew Y. Rogers treasurer. The executive board will consist of: F. Lasater, J. W. Bannon, W. S. Calhoun, R. P. Page, J. Mason, J. McGauley, L. B. Pitkin, and R. Davis.

## NOTICES

### Tea Dance

The tea dance has been called off on account of the flu epidemic in school. Those with tickets may have their money refunded by presenting their tickets at the Grill this evening between 6-7. The senior council will try to hold this tea dance later on, but the chance of it taking place seems unlikely as most of the remaining weekends are filled.

### Chapel Speaker

Tomorrow the 29th of April, the preacher at the divine service will be Rev. Carl H. Elmore, First Presbyterian Church, Englewood, New Jersey.

### Daylight Saving

Tomorrow morning Daylight Saving time will be in use throughout Massachusetts. Be sure to set all watches and clocks *one hour ahead* before you go to bed this evening.

Sunday evening from seven to seven forty-five the third talk of the term under the auspices of the Society of Inquiry will be given in the Auditorium of George Washington Hall by a delegation from Milton Academy. This will be comprised of three Milton representatives: Robert Faxton, Paul Swett, and Edward Wendell. They will arrive Sunday morning in Andover. The return trip is to be made in the near future by three Andover men.

On the same evening, three members of Phillips Academy will journey to Saint Mark's school, thus fulfilling our share of the exchange with this school. The two speakers to represent Andover at Saint Mark's, Adriance and Bates, will be introduced by J. T. Lindenberg, the third member of the delegation.

## EXETER NEWS COLUMN

### Morning Chapel Discontinued

The morning chapel services at Exeter have been discontinued for a while due to the influenza epidemic.

### First Exeter Track Meet May 4

Exeter will have her first track meet of the season when the Second team will face Haverhill High School on May 4. The First team will compete in the Harvard Interscholastics on May fifth.

### Southern Club Tea Dance

On May 5, the Southern Club will hold a tea dance at Exeter. The Crimson Ramblers' orchestra has been engaged, and confederate flags will be the principal feature of the decorative scheme.

### Vannini Ensemble To Play at Exeter

The Vannini Ensemble, which gave a remarkably good performance at Andover, a week ago, will play at Exeter this Sunday.

### All Games Called Off

Owing to cold and rainy weather, both the tennis match and the baseball game were called off here last Wednesday. The Exeter nine was scheduled to play Tilton school, and the tennis team was to have

(Continued on page 4)

## PHILO DEBATERS HOLD THEIR FINAL SESSION

### ROBINSON PRIZE CONTEST IS ANNOUNCED

Last Wednesday evening at 6:45 the final informal debate of the spring term was held in Pearson Hall. The meeting was called to order by Mr. Alfred Ogden. First he reminded the members of the Robinson Prize Debate, which will be held Friday, May 25, between two teams — one composed of the Philo's most able speakers, the other picked from other members of Philo and the student body. Trials for the second group will be given on May 2 from seven to eight o'clock. Mr. Ogden suggested a banquet, but since only twelve boys wanted one, it was decided to wait for more decisions.

The debate for the session was "Resolved that the Undergraduates in our Colleges are Wasting their Time". For the negative spoke Dines, Murray, and Thurber; for the affirmative Perrett, Rogers and McGauley. Mr. Perrett opened the argument by stating that while a boy is in college he can get something out of it, but fails to do so on account of extra-curriculum activities. The greatest of these is athletics which demand almost all a student's time.

The next aspect Mr. Perrett attacked was fraternity life. The drinking problem was viewed. The *Princetonian* has declared 70% of the fellows indulge in liquor.

The second speech was delivered by Mr. Dines of the negative. He admitted undergraduates may be seemingly wasting time; yet in the business of life they have many advantages. A university man will have a better job given him than any bricklayer. In the census of 1920 only 9 out of 1000 day laborers were alumni of a college.

Mr. Rogers spoke for the affirmative. The failure of university life, he said, was due to a lack of interest. College men take many cuts, and they "cram" for examinations during the previous night — a method of learning that is not lasting. Everyone's religion is shattered in a higher institution of learning. This may not do permanent harm, but wastes time. Men have not much interest and spend hours in social activities.

For the negative Mr. Murray spoke. The thing gained besides information is mental training. A fellow wishing to go into the world of business and finance has an opportunity to gain practical experience. Social advantage must be seen; friends, disappearance of snobbishness and provincialism and the meeting with all types of people.

Mr. McGauley took the platform for the affirmative. To his opponents he granted everything they had said, but he maintained students were not taking advantages before them: art galleries, etc. They merely go to a library to cram for examinations. A famous dean has stated fellows attend a university merely to have a good time, to get easy access to a white-collar job, and to follow custom. They are all wasting time. A dean must be just a policeman seeing boys stay sober,

(Continued on page 3)

## TRACK TEAM IN DANGER OF FIRST DEFEAT

### YALE MOST POWERFUL OPPONENT OF YEAR

Today the Andover track team will enter the hardest meet of their outdoor season, which will be against the Yale Freshmen at Brothers Field at two o'clock. With two easy victories over Harvard and the M. I. T. Freshmen the runners and field event men will find the going much more difficult against the Eli Cubs. Yale has always had a fast group of sprinters and some excellent field material, and the team of this season will be just as good as in former years.

Andover's chances of winning, however, are bright. Such men as Avery and Hoffman have ability equal to that of any freshman track star in the country. The former has won in two meets 43 points; the latter 20. All the way through the list you can find athletes who always gain one or two first places. The Yale Freshman team has entered no meets up to today, but has practiced arduously.

The past records of a few of the Yale Freshmen who have been outstanding have been sent to the *PHILLIPIAN* by Andrew Kaul, Assistant Manager of Track.

Nothing need be said to us about the record of Fred Weicker. He has shown up extremely well during practice, and should make a great name for himself in competition this year.

J. H. Macdonald, Freshman captain, is entered in 100 and 220-yard dashes. He prepared at the Brooklyn Poly. Prep, and last year won the 70-yard dash in the National Indoor Scholastics. Indoors this year he won the Connecticut State Championship in both 60 and 300-yard dashes.

Frank Conner, Hill School graduate, is going into the hammer throw. He was a member of the All-American Interscholastic track team for two years in the 12-pound hammer event and holds the record at Hill with an effort of 185 feet.

Unless sickness overcomes members of the team, the lineups will be as follows:

- ANDOVER
- 100-yd. dash — Swift, Osborne.
  - 220-yd. dash — Avery, Barres.
  - 440-yd. dash — Barres, Newfield Parker.
  - 800-yd. dash — Rogers, Fobes.
  - Mile run — French, Usher.
  - 120-yd. high hurdles — Tate, Pitken.
  - 220-yd. low hurdles — Wright, Wallace.
  - High jump — Avery, Murray.
  - Broad jump — Avery, Carroll.
  - Discus — Avery, Houston.
  - Shot put — Hoffman, Houston.
  - Hammer throw — Hoffman, McDougall, Berns.
  - Javelin throw — Robertson, Inglefinger, Gould.

- YALE
- 100-yd. dash — Macdonald, Griffin.
  - 220-yd. dash — Macdonald, Griffin.
  - 440-yd. dash — Talcott, Aitken, Coates.
  - 880-yd. run — Sumner, McCormick.

SATURDAY, APRIL 28, 1928

It seems fitting to say a word now about the unfortunate ending of yesterday's baseball game. In the first place, this is the first athletic relationship that we have been fortunate enough to have with Princeton for several years, and we do hope that she will not feel moved to discontinue these relations so recently rebegun. It was through a slight error that the Princeton coach was not notified in advance that the game would necessarily have to be terminated at four-fifteen on account of the afternoon classes at four-thirty and five-thirty. Consequently, when the visiting team was informed at the end of the sixth inning that the game would have to be discontinued, it was quite a blow to them, especially since the score stood eight to seven in Andover's favor. Their somewhat vigorous protests can therefore be more or less justified.

We are sorry that this incident occurred, of course, but we trust that the Princeton team will understand the situation and that they will no longer entertain any hard feelings toward us in the matter. Next year we hope to again see Princeton on our baseball schedule as a proof that there is no existing enmity between the two schools.

D. C. Smith, P. A. '25, was elected Assistant Editor of the *Daily Princetonian* in March.

## VISIT OF PRESIDENT CHANGED TO SATURDAY

By a recent communication to the Committee in charge of the 150th Anniversary, the visit of President Calvin Coolidge has been changed from Friday afternoon to Saturday morning. This was the original intention of the President, and, except for unforeseen developments in the future, will be the definite arrangement for his speech at eleven o'clock on Saturday morning, May 19. The President will arrive in Andover the previous night and will be the guest of Headmaster Alfred E. Stearns during his stay in the school. His departure will be shortly after the luncheon, Saturday noon.

President N. M. Butler, of Columbia College, who was to have been a guest at the Celebration, has found it necessary to cancel his acceptance.

Among the prominent alumni to be present at the Sesquicentennial is Dr. Lewis M. Silver, '78, who has been the agent for his class for many years. He was a senior at Phillips Academy on the celebration of the 100th Anniversary, and because of his loyalty to the school has been given a seat at the head table of the Luncheon in the Case Memorial Building.

William Lanier Washington, hereditary representative of George Washington, will be present as a guest of the school.

### Program for Sesquicentennial

In response to many inquiries regarding the program for the 150th anniversary celebration at Phillips Academy, the Executive Committee has authorized the following statement:

Owing to its limited facilities for taking care of large crowds and also to the necessary restrictions always imposed at any event at which the President of the United States is a guest, Phillips Academy has established certain regulations for the control of the Sesquicentennial Celebration on May 18 and 19. Formal invitations have been confined to alumni of the school, benefactors, friends of long and intimate standing, and a small group of distinguished guests representing the Commonwealth, the nation, and important educational institutions. Those who have received these formal invitations will, upon registration in the basement of George Washington Hall, be given tickets to the various functions on the program. In so far as space will permit, the people of Andover will be welcomed at the outdoor speaking on Friday afternoon, May 18, and Saturday morning, May 19; but only those with

tickets can be allowed within the roped-off enclosure. In case of inclement weather, the speaking scheduled for outdoors will be held in the auditorium of George Washington Hall, to which, naturally, only a limited number of auditors can be admitted. The school is obliged regretfully to state that no one without a ticket or the official medal struck for the occasion can be admitted to any of the luncheons or dinners being held on the two days of the celebration. The President, during his visit to Andover, will make no public appearance except during his address at eleven o'clock on Saturday morning, May 19.

### Hunting the Brown Bear

Last night Mr. Van Kampen Heiller, an old Andover man, gave an illustrated lecture on "Hunting the Brown Bear in Alaska." Dr. Stearns introduced the lecturer very briefly, and stated that he had done various kinds of outdoor work and exploration.

Mr. Heiller began his talk by telling of the wonderful trip that he had taken out on the Alaskan Peninsula from August to November. He left Seattle, Washington, and sailed northward along the coast. Arriving at his destination, Mr. Heiller set out on foot to hunt the brown bear. These, he said, were about nine feet in length and weighed about twelve hundred pounds. On this expedition he secured a male, female, and two cubs for the American Museum of Natural History.

After he had taken these specimens, he moved eastward and captured a caribou for the same society which had the greatest number of points but the smallest spread of any caribou shot during that season.

Many beautifully colored slides added to his descriptions of the extraordinary scenery of the Peninsula. The capture of the specimens was depicted vividly by moving pictures and stationary photographs.

Mr. Heiller stated, in closing, that the hunting in Alaska is second only to that in Africa, and that he advised all sportsmen to visit these grounds.

There is no better or more acceptable present than a box of "WHITMAN'S"

and attend classes. Even the word collegiate has not a bookish connotation.

Mr. Thurber was the third member of the negative to talk. College, he believed, helped one in life. Those friends so important in business are found in university clubs. If twenty men ask for a position, the boss will take his classmate. However, there is a value not in dollars and cents; the enjoyment of art etc.

Murray delivered the rebuttal for negative, and McGauley for the affirmative. They both tried to show everything their "worthy opponents" had said was a lie. Afterwards the debate ballots were passed around. When these were counted, it was found the affirmative had a overwhelming victory.

**"Men of Andover"**

Dr. Claude Moore Fuess, professor in the English Department at Phillips Academy and well known author has recently had his latest work, *Men of Andover* published. This latest accomplishment of Dr. Fuess was published by the Yale Press of New Haven, Connecticut. The book which has gilt edge and uncut pages is beautifully bound in blue with the Academy Seal on the cover.

*Men of Andover* was written to commemorate the 150 years of Phillips Academy on Andover Hill and was published at this time to be ready for sale during the Sesquicentennial celebration.

The book is a collection of biographical sketches of some of Phillips Academy's most distinguished graduates and associates.

*Men of Andover* is written in a tremendously interesting style and contains many excellent illustrations. Dr. Fuess has also pointed out many humorous incidents in the lives of these famous men while at Andover and in their outside life as well.

The sketches are of such men as Washington, who visited the Academy and later sent his nephews and grand children here. The nationally famous Paul Revere also plays an eminent part in the book, for he not only made the Academy seal but he also displayed a strong interest in the then young school.

Charles Bulfinch, probably one of America's most famous architects and the man who drew the plans for two of the oldest buildings now in use on the campus is mentioned. Samuel F. B. Morse, Samuel F. Smith, Oliver Wendell Holmes, and many other famous men known the country over are pleasingly discussed in this tributary collection of biographies. Dr. Stearns's introduction is a feature not to be overlooked for it deals with the school atmosphere, one of the biggest things at Phillips Academy.

John Pollard, P. A. '27, is a candidate for manager of the Harvard freshman track team.

**FACULTY NOTES**

Last Saturday Mr. Lawrence Roth, vice-president of the New England History Teacher's Association attended the annual spring meeting of the association held in Hartford, Connecticut. At the termination of the meeting Mr. Roth went to New Haven and was tendered a dinner by his former pupils, now students at Yale.

The joint basketball rules committee, after a two days' session in New York, decided that no drastic changes were needed and adopted only a few minor ones. Alterations in the wording of a few of the rules were instituted to make them easier of interpretation. Oswald Tower, instructor of mathematics at Andover, was again elected editor of the *Basketball Guide*.

to Chapin, and MacKinney hit to center to score Merrill. Moles was out on a grounder to Frank and Smith walked and stole second. Muldam hit to Mettler, who fumbled, and MacKinney and Smith scored. Rainmund was out on a hit to Kimball. Three runs, one hit, one error.

In Andover's half Batchelder walked for the third time. Jackson bunted and after a succession of wild throws, Batchelder scored and Jackson reached third, but was out on an attempted squeeze play. Allen and Kimball struck out.

The last inning proved fruitless for Princeton. Biehals was out, Wing to Chapin and Bennett hit to center field and stole second. On a pop fly over Wing, Bennett went to third after Merrill had fled out. MacKinney ended the game by fouling to Jones, who made a nice catch. No runs, one hit.

The game was called at this point because classes began at four-thirty.

The box score:

ANDOVER		ab	r	h	po	a	e
Frank, 2b.		2	1	0	3	1	1
Jones, c.		2	0	0	5	0	0

Mettler is leading the baseball squad in batting with an average of .500. Allen is second with .429.

The complete list follows:

Mettler	.500
Allen	.429
Jones	.400
Frank	.375
Jackson	.333
Batchelder	.200
Chapin	.125

Many have perfect records in fielding. Mettler has handled 11 chances perfectly and Captain Jones has accepted six without error.

Mettler	1.000
Jones	1.000
Batchelder	1.000
Jackson	1.000
Allen	1.000
Kimball	1.000
Wing	1.000
Chapin	.926
Frank	.923
Babcock	.889

Note: All who are not listed have .000 as an average.

**Famous Chairs Loaned to School**

Two chairs which originally belonged to Mrs. Phoebe Foxcroft Phillips, wife of the founder of this school were loaned to the school from the Trustees of Andover Theological Seminary. General Washington, when visiting Andover in the autumn of 1789, was the guest of Judge and Mrs. Phillips and sat in a chair, one of these two. So that no error might be made Mrs. Phillips had marked the honored chair with a ribbon. These two chairs will be on exhibition in George Washington hall during the Sesquicentennial with other famous relics.

**TRACK TEAM IN DANGER  
OF FIRST DEFEAT**  
(Continued from page 1)

Mile run—O'Brien, Rianhard, McCormick.  
High hurdles—Brereton, Devoe.  
Low hurdles—Hardy, Cunningham.  
High jump—Richardson, Lynch.  
Broad jump—Howard, Moore.  
Pole vault—Carr, McLennan, Behnke, Vaill.  
Hammer throw—Conner, McElwain.  
Shot put—Hase, Stewart, Ford.  
Javelin—Camp, Carr.  
Discuss—Weicker, Camp, Stewart.  
Hammer throw, 1:30.  
Meet, 2:00.  
Coach: McGall. Assistant manager, Knul.

**Bequests to Phillips Academy**

The Trustees of Phillips Academy have received from the estate of the late Elizabeth C. Jewett the sum of \$5,000, originally bequeathed by Miss Jewett to the trustees for the "principal purpose of providing a fund to keep the Jewett House, so called, in good repair." The "Jewett House", now called the "Tucker House" was built in 1881 for a residence for William J. Tucker.

By the bequest of the late Mary B. Ripley of Andover, who had been a consistently loyal friend to the school, the trustees of Phillips Academy will receive the sum of \$5,000, subject to the payment of a small annuity to the Andover Guild so long as the directors of that organization have corporate existence.

The Trustees have not decided as yet as to what use this gift will be put.

**Phillipiana**

Edward Murphy, P. A. '27, is playing on the Harvard Freshman golf team. Paired with Phillips Finlay, former Exeter star, he was beaten, playing for the Charles River Country Club in a team match.

Six former Andover men — John McClellan, Captain Vaughan, Gardner Brown, Billhardt, Bill Hammersley, and Dudley Smith — helped Yale win its first baseball game at New Haven with a score of 7-4 against Tufts. John McClellan scored what proved to be the winning run when he ran home from second base, John Garvey having hit.

Geoffrey Glendinning, former Phillips Academy athlete, is one of the ten Dartmouth track men picked to represent their college in the Penn relays at Philadelphia today.

**SIR WILFRED T. GRENFELL**

Dr. Grenfell was educated at Oxford, and after taking a course at the London Hospital he entered the medical service of the Royal Navy of England. He was House Surgeon to Sir Fredrick Treves at the London Hospital. He fitted out the first hospital ship for the North Sea fisheries, and cruised with the fishermen from the Bay of Biscay to Iceland. After establishing homes for them on land and mission vessels at sea, Dr. Grenfell came to Labrador in 1892 where he built four hospitals, a series of co-operative stores, an orphanage and a school, and started numerous small industrial schemes. In 1912 he opened in St. John's Newfoundland, the King George the Fifth Seaman's Institute, the money for the erection of which he had raised during the previous ten years.

Among Dr. Grenfell's publications are: "Adrift on a Pack of Ice", "Down North on the Labrador," and "The Adventure of Life".

Andover was the first place Dr. Grenfell came to in the United States. He has lectured here frequently, and this school has for many years contributed financially to his work in Labrador.

**Camp Winona**

Moving pictures of life at Camp Winona, Denmark, Maine, will be shown this evening at Cheever House at seven o'clock. Mr. Philip Cobb, one of the Directors, will be present, and will be glad to see any old Winona campers and any who may be interested in the coming season. Catalogues may be secured from Mr. Jacob.

**EXETER NEWS COLUMN**

(Continued from page 1)

had a match with M. I. T. Freshmen, whom we are now to meet May 12. The diamond is very muddy, and there is water along the base lines. The tennis courts are also covered by several inches of water. The track, too, is flooded, greatly hindering the team in their daily practice. The next baseball game will be with Princeton Freshmen, one day after Andover has played them, this coming Saturday. The tennis team meets Harvard Freshmen on the same afternoon.

**Our English Guest**

The coming visit of Frederick B. Malim, Esquire, Master of Wellington College, who will represent the English Public Schools, is very significant of how wide-spread is the interest in the 150th Anniversary of Phillips Academy; it is a sample of the influence created by this celebration. Wellington College, from which this celebrated guest will come, is a school in many respects like Phillips Academy. There is an enrollment of 625 boys, a faculty of 45, and accommodations for the students in fifteen dormitories and boarding houses. However, no student over nineteen is kept in the school and the curriculum differs somewhat from ours, the full school course being extended over five years. The school was named after the Duke of Wellington and was founded shortly after his death in 1852. In the beginning, it was run primarily for the sons of military officers. Mr. Malim himself is an outstanding figure among British educators, having been for many years connected with well-known English schools before becoming master of Wellington. He will land in America on May 16, where he will remain for some time, visiting our schools.

**Wentworth Game Called Off**

Because of high winds and a sky flecked with clouds the baseball game which was to have been played against Wentworth Institute last Wednesday, April 25th, was called off. The sun shone, however, during the afternoon so the team had an easy workout.

**Ride on a Ranch—  
Camp in the West  
With Prep School  
Boys this Summer**

Real ranch life with experienced cowboys and trained college men.  
Ride your own horse, learn to throw the lariat, follow the glorious trails of Arizona. This is the kind of life that gave Roosevelt the physical and mental stamina for a career of intensive activity.  
Carefully selected group of boys. Ranchers with years' experience handling boys—as well as horses. College men who devote entire time to the campers.
