# Goldovsky To Present ecture-Recital Friday

### Well-Known Pianist Will Appear in Second Fall-Term Entertainment

Performing on the piano keyboard, Mr. Boris Goldovsky, ted musician, will appear on the stage of George Washingn at 8:15 Friday night in the second of the entertainments heduled for the Fall term. Mr. Goldovsky, under the managent of Aaron Richmond, will pre-

t-a lecture-recital at this time. Well-known especially in Boston, Goldovsky enjoys outstanding pularity for his brilliant piano hnique as well as for his enging sense of humor. Born in scow in 1908, he first studied th his uncle, Pierre Luboshutz, d Nemenoff. At nine he made his st concert appearance. He conership, he hued his study of the piano with thur Schnabel, then graduated m the Liszt Academy, cometing still further studies at Budapublicity, st with high honors under the telage of the distinguished hnanyi.

stige. He Mr. Goldovsky came to America d for ex- 1930 to join the staff of the Cur-Institute in Philadelphia. While his stuere, he met and married the soano, Margaret Codd, and after numbers ree years, moved to Cleveland at ren't the e invitation of Arthur Rodzinski, students, inductor of the Cleveland Syming and ony Orchestra. In the summer of 41. Dr. Serge Koussevitsky inted him to the newly-formed usic Center at Tanglewood in the assachusetts Berkshires. Since did the at time Mr. Goldovsky has been favorite of Boston music lovers country, Rudolfe Elie of the Boston Herald offly, 4th ote of his work: "Always his chnical assurance at the piano is mplete. In his playing Mr. Golvsky reveals his true stature as interpretive artist. . . his playing a means to an end, and not an d in itself." This unique musical rsonality has won praise, always the highest order, from many ner critics throughout the counfor his exceptional accomplish-

> Mr. Goldovsky is the first of two ces scheduled for the Fall term. Wednesday, November 22, ris Doree, a soprano, will prent a concert of songs.

### CIENCE CLUB OES NEW WORK

The Science Club, which meets fly in the activities hour, is ided into two sections, Section for boys who have had, or are ting Chemistry or Physics, and ction B for those who have not, are not, taking either. The rty members do not assemble in y particular place, but work in ferent parts of Morse Hall, acrding to their various projects experiments. The activities of Science Club include Minerol-Physics, Chemistry, Mechan-Meteorology and a great many er interesting subjects. Two pups are working on a steam gine and automobile motor. One mber is deriving ether from alco-, another is trying to make some refied hydrogen. Glass fusing, tal plating, distilling, the makof gun-cotton, and the derivan of one chemical from another only a few of the many experiints being carried on. Even mes Lebenthal, the Phillipian's otographic editor, takes advantof the clubs' facilities to mix e has, yet.

There will be no PHILLIPIAN meeting tonight as scheduled. Instead, all heelers and board members must be present at an important meeting after supppr Thursday night at 7:00.

# Mrs. Irina Aleksander To Give Lecture Here

Subject of Her Speech To Be: Getting To Know Russia Better

Appearing here on October 24 in behalf of Russian War Relief, Mrs. Irina Aleksander will lecture at 8:30 p. m. on eight out of the thirteen members. the subject "Getting To Know Our Ally Russia." Mrs. Aleksander, Russian wife of an American, has spoken throughout

the country on the relationship between the United States and Rus-

Those students who attended Mme. Magidoff's brilliant and moving lecture last year and heard her speak on her homeland, Russia, can verify the fact that it was a tremendous success. This year many seats will be set aside for the undergraduates until 8:15 with the hope that Mrs. Aleksander will be greeted by a large audience.

### Author of "The Running Tide"

Irina Aleksander was born in Leningrad and lived there until she came to America in 1941. Under the pen name of Irina Kunina she wrote short stories, novels, essays and poems, and she has even taken an active part in screen writing. Many of her works have achieved recognition in Europe and America. Probably her greatest literary triumph was when in 1941 her novel, "The Running Tide," was published in New York. Even though it is classed as non-fiction, it is "a spiritual and glowing novel of heroism and struggle." It describes the period prior to this war and the opportunities Russia at that time provided for its people. Many of the "conflicts" which prevail in modern literature are not found in "The Running Tide" because it deals primarily with a young married woman, who had the sane and realistic outlook on life characteristic of many Russians.

Mrs. Aleksander has observed the continual struggle for survival in while looking for another group of girls to help. Dr. Pfatteicher stated Russia since the end of the last war. that Rogers Hall, in Lowell, might She understands the necessity of a strong friendship between such Tryouts for principal parts were the United States, and she sees that Americans must learn more about definite. Other pieces which are now in rehearsal include music for the Christmas service, "Requiem" by Cherubini, and Mendelssohn's 'Hymn of Praise", the latter which will be presented at the big concert in Boston next Spring.

The Boston concert which will include five or six other prep schools besides Andover was previously scheduled for Jordan Hall in Boston. It has been found since then, however, that this hall would not be able to hold the large chorus, so Symphony Hall has been sought.

A symphony orchestra will accompany the singers for the "Hymn of Praise". The concert has been -Continued on Page 4 tentatively set for April 11.

### MODEL MAKERS MEET IN G.W.H. Mr. DiClemente Leads

Able Student Group

One of Andover's most interesting hobby groups held its first meeting in the basement of George Washington Hall on Monday, October 2. The Model Airplane Club met to organize and discuss plans for the coming year. Under the leadership of Mr. DiClemente, the faculty advisor, an able group of students have already gotten under way on their projects. The members are slightly handicapped by their lack of a common workship, but they have been carrying on their work successfully in their own rooms.

The club offers an excellent opportunity for interested individuals to get together and discuss recent innovations in model making.

### How To Use Your Head

A NYONE who has watched this year's varsity soccer team in action has undoubtedly been amazed at the amount of brains they display. Once upon a time, most people thought that all soccer demanded was a pair of nimble feet and tireless legs. Now, with a new interpretation based upon observation, it is clear the region above the eyebrows is fully as important as the region below. By this definition, then, soccer is a sport in which brains must count as much as brawn; it must be obvious, then, what thick skulls are required to "head" a heavy soccer ball down the field without suffering a concussion.

Whatever the secret may be, the present varsity squad certainly has it. Coach Jim Ryley is climaxing many years of successful coaching with his customary genius for moulding a powerful team from many individuals. His talent for discovering the best in each player and using that best to the fullest advantage has become proverbial, and the performance of the present undefeated squad testifies to his abiltiy. His headwork translated through into team headwork is helping to defeat all comers.

Joe Wogan, as Captain, has further inspired the team with his fighting spirit which, by refusing to think of defeat, is not defeated. His presence around the goal is a guarantee to the forwards that they need only to look ahead. And with the forwards pressing the attack, the halves and fullbacks need only head the ball into opposing territory for a new offensive after each goal. Every one on the team has learned to use his head.

An expert coach, a fighting captain. and a practiced team cannot add up to less than victory, as the records show; but there is something more important than victory, something which can compensate for defeat, if necessary, and which, omitted, confines victory to statistics and games won. This something is support. Support is something every team needs, it is a spur to greater accomplishment, an index of spirit, a symptom of success. Without it, some games are won to be sure, and the team that wins under such circumstances can be doubly proud; but with it, few games can be lost, and a conquering team multiplies its conquest. That Coach Ryley's | been abused, but essentially it has re- | man (C. Aubrey Smith).

squad has triumphed unsupported indicates unrealized potentialities. These will never add up to smashing victory until the students adopt a little headwork themselves.

Next Saturday, the soccer team meets Medford High School which currently has one of the most powerful aggregations in the East. Defeating them will call for the utmost in Captain Wogan and his teammates, in skill, endurance, and spirit. They will need all the support the whole student body can provide; no less can suffice. Jim Ryley will be using his head, Joe Wogan will be using his, and no Andover rooter should let the hair grow on his.

How can a spectator use his head when he's yards away from the ball? The answer is simple, Andover will win if every student in the school is on the Old Campus and yells his head off, cheers his head off, and heads the Royal Blue on to victory.

### How Old Is Old?

TOMORROW The PHILLIPIAN observes the sixty-sixth anniversary since the first issue was printed on October 19, 1878. Such an event adds further dignity to increasing years as, by human standards, it becomes an old man. Yet despite the sixty-six years which are the heart of a lifetime, or a chunk of modern history, or the whole of rapid scientific advancement, The PHIL-LIPIAN remains young in patriarch fashion. In fact, it may well be younger today than in that first hour when the initial copy rolled off the press.

In its early days as a budding newspaper, The PHILLIPIAN suffered many of the pains consequent of innovations. Its first task was one of definition, of finding its sphere in the Academy life, of supplying the news of its day, and of gratifying the interest of its readers. It was a humble beginning, but characterized by youthful enthusiasm appropriate to its age. Increasing years brought added wisdom, and the paper changed to meet new demands and new opportunities. As Editor gave way to Editor, ideals, policies, and ambitions began to form into a body of tradition which has been expressed in service and interpretation ever since.

During middle-age, so to speak, The PHILLIPIAN gathered influence and prosperity to the extent that it was published twice weekly instead of weekly, fortnightly, and monthly as had been the schedule previously. Greater coverage of news, feature stories of interesting people or events distant from the campus, and various columns and critical reviews were conceived and adopted. As more and more was added, it became worthy of professional journalistic standards.

The greatest changes in The PHIL LIPIAN, however, have been realized within the memory of the present senior class. The format and type were completely revised with larger pages and more news columns. At the same time. bi-weekly publication ceased as a wartime measure. Again the policy, duty, and purpose of the paper underwent reexamination from which evolved this very issue.

Upon this birthday which ordinarily marks the peak of mortal accomplishment, it is clear that years have added but experience and prestige, not obsolescence. Today The PHILLIPIAN is as youthful as it was sixty-six years ago, for age has been annually rejuvenated with enthusiasm since the first issue. It has had to adapt itself to the peculiarities of each new board, it has nearly starved in lean years to become substantial in prosperous ones, it has at times

mained young in spirit.

As for tomorrow, The PHILLIPIAN can only look ahead into troubled times. The days of mechanical shortages and restrictions are gradually fading-into the past while a new challenge to itsjournalistic abilities approaches. As it has changed before, so must it continue to change. And so long as youth remains with it, it can serve youth with sympathy and ability.

# This Andover

By Sevenoak

The colossal turnout for the Glee Club this year has put Dr. Pfatteicher in a unique position. I saw one unhappy

Lower staggering from the Chapel last-Friday evening. In my most desirable campus spirit I asked him what was amiss. He blubbered out

his answer. "First I'm kicked off Varsity Football, then Soccer, and even the J.V.'s; now they cut me from the Glee Club. It's demoralizing."

Well, like all phenomena on the Hill. this situation must have some explanation. The suspicion that Shirley Temple isn't going to Bradford has caused attendance to drop some since the beginning of the year (to say nothing of the high mortality rate in the tenor section from the F's, row on row, in the "Hymn of Praise.") But the three back windows in the Choir Room still bulge of a Friday evening, and the lusty roar continues to shatter glass in Sides House across the street.

Why? Assuming that this is an average student body, and barring the use of the Cyclical Theory, there seems to be but one fundamental reason - the resurrection of the faith, shattered by the cafeteria system, of the Andover Man in American Womanhood. Viewing the radical improvements down School Street he can hardly fail to infer that Rogers Hall, Dana Hall, Bradford, etc., must have gotten their share of the bumper crop of beauty. This new optimism is reflected in the latest report from the Basement Betting Bee, which reveals that in Glee Club minds the odds for getting a 'lemon' at concerts have dropped from 3 to 2-to-1.

# Movie Preview

Following selections by the Riveters before the show, this week's picture will be M.G.M.'s "White Cliffs of Dover." last May's release of Alice Duer Miller's best-selling poem. Although this picture is considered a masterpiece, it is probably not the type that will be enjoyed too much by P. A. students on a Saturday night. Starring Irene Dunne, the picture boasts such other able actors as Alan Marshall, Frank Morgan, Van Johnson, and Roddy McDowell. It lasts about two and a half hours.

The story is that of an American girl named Susan (Irene Dunne) who, with her father (Frank Morgan) comes to England on a trip. There she meets a Lord John Ashwood (Alan Marshall) and marries him. The story deals with this family during the period between the first World War when Susan gets news of the armistice and her husband's death at the same time, and the second World War.

The film, although very slow moving in spots, is certainly to be considered a grade A picture. Highlight of the film is a chess game between Susan's father (Frank Morgan) and an English gentle-

# Pandora In Hollywood, The T.B.M. And Mamma's Beneficial Bawling

to have that relaxation disturbed we feel tragedy the only way ou by such wayward thoughts as "Is The Russian novel-is reputed this movie any good?" Evaluating end in tragedy as often as the Ho anything requires some judgment, lywood film does not. Both and exercising any judgment is on tremes if used as a formula the whole tiring. Consequently it come rediculous. But there is is far better not to worry about the difference in the method of getting tripe-ish quality of most class B there. For even if the Russian tilms you sit through, because once repeatedly point out you can't win you begin to question, taste and they introduce you to a lot of re performance you get started on a people and plausible situations be simply exhausting train of thought fore doom cracks, while Hollywood which may hound you the rest of meets you up with a lot of charm your days. If, -then, relaxation is ing automatons that might well your aim, this article is dangerous live happily if they ever existe and should be taken in small doses at all. The films are so consciou or left entirely alone. But before of their destination, they forget to you turn to something else, may I make the trip enjoyable. And th suggest that bed is a better place ride is what you buy your ticket for to relax than the movies with no federal tax to pay there either. This relaxed way of looking at

the theater has long been recognized and the point of view is known as the T. B. M.'s, that is, the Tired Business Man's. They spend from 9:00 until 5:00 in an office seeking profit by trying to coresee impending - booms and crashes in time to maintain their ramily's standard of living at the accustomed rung of the luxury adder. One luxury the family expects its business man to provide is an occasional evening at the Mom's beneficial-bawl turns out to movies, so Dad, home from a busy be vaguely based on identifying day at the office is forced to take Mom and the kiddles to the show. the heroine is a dream version of After the tinancial worries of the herself, or the plot sufficiently day, he does not want an evening folksy to make her feel at hom of further harrowing, and if Paulme gets into peril, Dad, for one, feels it is up to her to get out of it. nothing "outrageous" or even mild And, whats' more, she always does, by "off color," for she is easily though often the means are nothing shocked and insists on strictly short of miraculous, and defy the normal situations. I have seen so laws of probability if not of pos- many class B films designed sibility. Scenario writers at their please Mom that I can't separate wits end, struggle to accomplish one from another in my mind this, their mission. For they all where they have rolled themselve know that PAULINE MUST BE up into a baby pink blurr. They al RESCUED. Why? Because other-involved a blonde (Mom in disguise wise Dad would never go to the who, to me, seemed a little dull movies again, and Mom and the kiddies would have to stay at home well as a brunette who seemed to too,—and what would poor Holly- nave much more on the ball gener wood do then?

### Happy-Ending Compact

Hollywood knows its public, is smart and aims to please. It saw rom the beginning that all Amerian Dads would put up with anxiety over various Paulines only if they had assurance from reputable firms like M. G. M., Warner Bros. and Paramount that everything would turn out for the best. Dad and Hollywood, both in business, signed a mystic contract to .the effect that he last reel would somehow, logically or not, have a final fade-out of "-and they lived happily ever after." The Happy Ending became as essential a part of American movies as Fords, hot dogs and baseball games were of American life.

Walt Disney took this Happy Ending formula for a ride in his version of "Chicken Little." The logical ending to the story is the scene of the Fox enjoying a square meal, but the action is interrupted by some one's voice (and it was really Dad's) saying, "But this isn't right! The way WE read the story it had a Happy Ending." The Fox simply replies, "Don't believe everything you read," and chalks up another wishbone in his private chicken cemetery. Even the children's story of "Chicken Little" ends on a sad gastric note without apology. But Disney who certainly ranks with P. T. Barnum is understanding American psychology, stops his story at the crucial moment to kid the Industry for its outworn contract with tired American business dads. His punch line would be weak if it were not for the Happy Ending

### Pappa No Pessimist

Now I have nothing against this conspiracy between Dad and Hollywood to give me Happy Ending stories as long as they are logical about it. Though not a business man I too am often tired, am a dad, and relish the brighter side of

If you regard the movies as your things if given any plausible reaso chance to relax after a busy day to believe in it. I am not such hen you presumably do not want pessimist, and neither are you, that

Now while Dad may have le Hollywood to sacrifice all to the destination, Mom's influence though subtler was none the less potent and has become more so since she joined the Woman's Club and goe emancipated and collectively to the movies. Dad may have gone to re ax, but Mom goes for a "good cry."

#### Mamma Likes To Cry

This expression "a good cry" an American creation worthy o profound study. It implies some cries are bad, others beneficial herself with the goings-on. Possibly in it. Once she has established con tact, all is well-providing there is very nice and insipidly charming, a ally, but who unfortunately had committed a sin, usually before the action of the drama takes place er error is but lightly hinted at, and along about the fourth reel she develops a heart of gold, and, to atone for her past, she dies in rec etent while making it possible for the blonde and or the Hero to escape from the predicament cook Tu ed up in reels seven and eight. Now large her beautiful death gives Mom very, verygood cry, because it was so terrible what happened to her but of course if a girl behaves that way she must expect the works. In life lovely blonds get disappointed every day, and every day world weary brunettes survive. But such a turn of events would give Mon a bad cry as well as pause for thought.

wn.

So much for Dad and Mom, but what about the Kiddies? They of course grew up to be Andover students and took their dates to the movies or went there together in wolf packs and chewed gum. I should logically now discuss their point of view, but since I already have, I shan't repeat myself. For when I referred to Dad and Mon I really meant you and the girl friend. Dad has seen the world crash around his ears so variously and vigorously of late that he no longer wants baby food, and Mom has gradually accepted the changing order and has snapped out of her dream world. Leastways, it seems to me they have both matured, though Philip Wylie may have it otherwise. At all events they have supported Hollywood's increasing effort to produce unusual films no no longer built on the old formulas. But their earlier point of view has descended like a mantle on their children, smothering any critical faculty.

The student takes his movies like a drug. He will sit through the dullest film without apparently ever

## P. A. Faculty Has Success In Gardening

ton, Here.

Vegetables of All Kinds Grown During Summer Session, Fall

The various faculty members, about twenty in number, are now completing their third wartime harvest from several Victory gardens scattered over the Campus. It is expected that food raised and canned in recent months will supply ROMANS LEAD the faculty members and their families with vegetables for the entire SOCCER LEAGUE

The project was started by Mr. terback ran it back to the 25. Two Dake and Mr. Sanborn three years ago in anticipation of a food shortpresent land, they have since built laid the groundwork for the followlowing year. That was the year the the Saxons, 4-3. other Andover touchdown. Moher's Army was piling up its huge food Tufts to score, most of which were ing an asparagus patch and berry the Greeks on the three yard line. play, which they were only able to bushes, both of which take several use once successfully during the years to mature.

By this spring, more of the faculty began gardens, and the result of this greater effort is the biggest harvest yet. Vegeables of all kinds were grown, and several late crops Gauls. were put into the ground in August. right tackle, he turned and later. In the smaller gardens stock-foods alled the ball to the fullback, who such as Carrots, Tomatoes, Lettuce, whipped a long pass down to the several varieties of Beans, Cabbage, right end for 40 yards. The play and Sweet Corn were grown suconly temporarily befuddled the An-cessfully. Squash, Pumpkins, Swiss Chard, Spinach, and the like are the play was used, the pass was still coming up. Potatoes, of course, were grown in quantity. While much of this food was eaten in the course of the summer, the surplus was so great despite the drought kick-off, but Tufts gained posses that canned and dried stocks are expected to last all winter. The center pass. Tufts then made a con- drought, which lasted for more than certed drive in an attempt to score a month did some damage and retarded the growth somewhat. A few plants were killed by premature

## SOCCERMEN CRUSH GOV. DUMMER 5-0

Today's New Hampton Contest Cancelled; To Play Watertown

Led by Captain Joe Wogan, the soccer team defeated Governor Dummer Academy five to nothing last Wednesday. Taking an early lead, and holding it until the finish, the Blue team looked strong both offensively and defensively. Though the score was one-sided, the game was hard-fought through-

J.V.A. Squad To Face New Hampton Sat.

Agaressive B Eleven Plays Punchard 2nds At 2:30 This Afternoon

This afternoon at 2:30 the J.V. B squad will play the Punchard 2nds at Punchard. In the only football game at Andover on Saturday, the A team will face a strong New Hampton eleven at 2:30 on Brothers Field.

Though the starting line of the B squad is indefinite, the opening kickoff will, probably see Lackey calling the signals, Lunder in the fulback slot, Chapin and Miller at the halfs, and Atkinson at center. miller, Dale, Rodgers, Gross, W. Williams, Dunlop, and Hattemer. The punting will be done by Lackey and Rodgers.

The A team will enter the New Hampton contest as the underdog, because the Andover eleven is handicapped by a lack of experience as a unit. The backfield is reasonably determined, with Pugh and Gorden at the halfs, Captain Moreland at quarter, Audliff at full, and either Hardwick or Tait at center. The most promising line candidates are Saltonstall, Edge, Prentiss, Kimball and Trowbridge.

# Opens Next Week

Monday J.A. soccer league competition will open. The initial football games will be played Tuesday. In three weeks, the league leading football squad will face Rivers Country Day school.

During the past weeks the soccer group has developed into the best in several years. The players have mastered the fundamentals of teamwork and position playing. Out of all these. Hutt is the most outstand-In practice scrimmages the ing. Gauls and the Romans defeated respectively the Saxons and Greeks.

Mr. Brittingham, coach of J. A. one. However, I suppose when the football, is assisted by MacLellan, theater is dark and the company is Collier. Stear, and Ellis. Boyd, by far the best player, has been shoved engaged arm and ask, "I beg your up to the J.V. B squad. In league pardon, but do you think this is a competition, games will be played twice a week.

out. The forward line, with Ross Hoy working at center for the first time, produced all but one of the ive goals.

Isitt took a long kick from Wogan and\_registered in the first few minutes of play. It looked like a rout. but the Dummer defense strength ened and Andover was unable to score again in the first half.

Again in the third period the Blue team took the play, Couch tallying on a pass from Hoy. The opposition weakened, and Hoy and Dunbar each scored in quick succession, assuring victory. Prideaux turned in the gem of the afternoon when he dribbled down to within about twenty feet of the goal, and put the ball in the upper right corner of the cage. This ended the scoring for the afternoon.

The game was hotly-contested by both teams. Ortega, of the opposition, was banished from the game by Referee Stone, after he had warned the scrappy player twice. The Andover team played their hardest even though they might have rested on their comfortable lead. There was a definite improvement over the play of the week before, especially in the persons of Captain Wogan and Ross Hoy. The team made the trip to South Byfield in cars, as there were no busses available.

The game with North Hampton scheduled for today has been cancelled, but the team meets Watertown High school at three o'clock this afternoon on the Old Campus. On Saturday the Blue will play undefeated Medford High school.

## ... On The Sidelines ...

By C. C. McCRACKEN --

seven out of a possible twenty-one P.A.T.'s were successful,

A point of criticism came up over the scheduling of two games with the same football team in one season. This has happened with Tufts twice now. The point made, and it deserves some merit, is that the second game turns into something of a grudge-fight. Saturday's game was anything but a clean encounter. The prospect of the second game is even worse. The same situation arose during the lacrosse season when a new P.A. record was set in penalties - on Tufts. Football has been a sport where a team is encountered once a year, developing traditions of rivalry. Why not leave it that way and let the Pro leagues battle it out in mud and blood several times a year.

Another week of football past and a few more names in the news hind them, Ed Mead's Royal Blue and a few more visitors. At New outfit has its eyes pointed toward Haven, Ben Hammer, P.A., '43, and Bob McKim, P.A., '44, helped the might be added that Exeter's loss Elis to victory, playing quarterback and tackle respectively. McKim was an Exeter game starter a year ago, and also played on the basket- charges.
