PHILLIPS ACADEMY, ANDOVER, MASS., NOVEMBER 29, 1944

Price Ten Cents

nook, Reed ead Boards of Pot Pourri

Work Already Begun; 1945 Book Will Have **Universal Interest**

ch, although the staff of the 1945 Pot Pourri, nny, but just aded by John B. Snook, Editor-Chief, and by Howard S. Reed, siness Manager, is hard at work the job of composing a more inesting, more readable, and genanquet postally a better book than past years ve produced. To this end all available talent

the school has been utilized. Art ctures take hitor Harry Reid and Cartoonist Jones are supplying section diders in the style of last year's t Pourri, as well as humorous ilstrations for the activities secn. Other members of the Art ard will illustrate the activities viders. The editors of the book so believe in a fuller utilization modern camera methods, and so, spite of difficulties caused by war ortages, Photographic Editor Jim benthal and his board members e working to produce an accurate. chnically perfect-record of the ar for the yearbook of the Class 1945. Picture coverage of the fall rm, often sketchy in former years, ill this year be complete.

Business Board

To Howie Reed's Business Board clongs the difficult job of making e book a financial success. Circution Manager Charlie Gearing is pervising the Circulation Drive is Friday night. Advertising, alays an important concern, will be ocured by Advertising Manager ave Schine. In this respect the job ill be at least as hard as last ear's. The dearth of the so-called ational ads, those from large conrns which do a nation-wide busiess and which formerly were the ain stays of many school and colge publications, is even more

sed in last year's book. The 1945 ot Pourri, as the 1944 book, will divided into six sections-Faclty, Seniors, Activities, Sports, Soeties, and Underclassmen. Each ction will be introduced with the rt Board's divider, and will conin articles, group pictures, and andids of the subject involved.

Changes

The new board has introduced langes designed to make the book etter than last year's, or than any revious year's. Group pictures of e Faculty members will again be ^{acluded} in their section. Activities ill be sub-divided into groups, and here will be more pictures of club embers in action. More action ctures will be featured in the ports Section, which will also inlude spring term sports results up the absolute deadline for publiation. An important innovation is he addition to the Underclassmen ection of a group picture, to be aken on the steps of Samuel Philerm. The contents of the Feature | really wants to be a doctor cannot ection will not be announced. To be swayed from his path by any elp provide continuity for the arguments or obstacles; conversely, book, each of these sections will the boy who is undecided as to the onclude with two or more full-page wisdom of studying Medicine might hotograph montages.

Art Gallery Notes

The Addison Gallery opened yesterday an exhibition of art works which will be on sale until December 27.

The pictures are in oils, watercolors, and silk screen, and are priced from \$5 to \$50, and include the works of some Andover artists.

French Play Will Appear December 5

Mr. Cochran Directs **Cast of Fourteen** In Bloch's "Toulon"

The French play, now going into its sixth week of rehearsal, will be presented December 5, Mr. Cochran disclosed yesterday. The timely argue the negative of "Resolved, modern play, "Toulon," concerns the scuttling of the fleet at Toulon and the subsequent rise of the

Only two scenes of Jean Bloch's play will be produced, but they are complete in themselves. In the first, Admiral de Fromanoir orders the scuttling of the "Strassbourg," pride of the French Navy, and numerous small vessels. Brazire, a collaborationist, tries to prevent the old admiral from carrying out this drastic cision and the honor of France is saved. Later, in the second scene, Martial, the admiral's son, leads a detachment of FFI troops who execute Brazire, four Germans, and another collaborator, Alice.

Thaw, Thompson, Algrant Star

The three leading parts are portrayed by students who have some dramatic experience. In the role of Fromanoir is Mike Thompson, who played the part of the old father in last year's Latin play. Dave Thaw last year remember the job Dave did in the part of the Pirate Lieucute than it was at this time last French fluently. The remainder of Grey will take the negative. the cast includes McGill as Patrice, ill be much the same as those two German soldiers are still open. activities is purely voluntary.

Debate Team Meets M.I.T., Also Exeter

Compulsory Military Training Subject for Three-Separate Teams

the three P. A. varsity debating teams will discuss compulsory military training. In a return dispute on First Show Friday, other teams will argue the same question. Also the term's final Philo debate, in which the Electoral College will be discussed, will be held today.

Following the completion of tryouts, which were held the first three days of last week, Mr. McCarthy announced the three teams for That the United States should esitary training" against an M. I. T. freshman team. Tech will be the seat of this discussion scheduled for the afternoon.

Another M. I. T. team will come to the Hill Friday to face a team of Buck Ihde, Don Love, and Len Richardson, coached by Mr. Mcative of the same topic as today's Tech debate.

A Third Team to Meet Exeter

A week from today Don Landis, Dave Baty, Ed Jones, and Ed Hawkins will travel to Exeter to argue with a team from the Goldenbranch Debating Society. The Andover team will again uphold compulsory military training. Don Landis, Dave Baty, and Ed Jones will each give a constructive speech, and Ed Hawkins will give the only rebuttal.

"Resolved, That the president should be elected by direct popular vote," is the subject of the last is Brazire, and those who were here | Philo debate this term. Dr. Shipman Advises P. A. Students On Entering Medical Profession

Editor's note: This-article is written for The PHILLIPIAN by Dr. Thomas L. Shipman, P.A. '23, Yale '27, and a graduate of the Harvard Medical School in 1939, Dr. Shipman is now Works Physician at the General Electric plant in West Lynn, Massachusetts.

You don't become a doctor by accident or coincidence. There are many fields of endeavor which will prove fruitful merely by accepting the opportunity when the right "break" comes, but Medicine is not one of them. A medical education costs too much money and takes too much time to permit it to be ips Hall toward the end of next considered casually. The boy who just as well give the idea up before

roller coaster -- once started you et sales and the presentation of have to ride to the end, unless you the shows. get thrown out. A medical career. therefore, starts as soon as the decision is made. From that moment on many minor decisions in your life will depend on that major one; your academic courses, your choice of friends, your vacations, all these and many other matters will be influenced by your main object in life. Certain important plans must be drawn up early, certain ideas adjusted if the future is to proceed in an orderly manner. Not that plans and a general pattern must be kept in mind. It must be remembered that there are no short cuts in this field and no "second bests." Your educational foundation must be of the first order.

Film Society

Those who have not bought tickets for the Film Society may do so before the movies tonight. All those who enter must show the season ticket.

Supper will be served at 5:45. The show will begin promptly

At M. I. T. this afternoon, one of the three B. A. varsity debating David Harum

Will Rogers Is Star, Producer, of 1934 Hit At G.W.H. Toniaht

The Film Society's first movie, 'David Harum," will be shown in the coming varsity debates. Ed Jor- George Washington Hall tonight dan, Joel Nixon, and Dick Hulbert, right after supper. The show, one of under the coaching of Mr. Cory, will Will Rogers' best, is built around the old hayseed philosopher who was the most beloved man of his tablish permanent, compulsory mil-time. This performance is the first of two this term, and six next term. David Harum is the man Will

Rogers seemed to be. Will, who in 1934, at the time of this production, was making close to \$15,000 a week, had graduated from the sincere comboy philosopher stage, and had become an influential man in almost Carthy, who will support the affirm- every field. His political columns were widely read, and Will was one of the outstanding supporters of large-scale aviation projects. In fact, when President Roosevelt ordered the Air Forces to carry the mails, many people suggested that Will Rogers be made Secretary of the Air with control over all aviation. But most of the people knew Will Rogers as "that funny cowhand thinker," or something of that sort, and the theatre and movie public loved him as such. In fact,

Two prizes, the first for twenty dollars and a second for ten, are awarded to those members of English 3, 4, and 5 who best "deliver from mem-

ory a passage of prose or poetry of some significance, force, and beauty." The preliminaries were held sev-

Rogers Hall To Sing With Glee Club 70 Members To Make

Lowell Trip; Gershwin Music Will Be Sung

On next Saturday afternoon, and secular numbers, while the Orcal pieces.

Plans have been made for the concert will start at 5:00 and last interest. until 6:00, when dinner will be served. The dance will begin after supper and continue until 10:00. The group will be home by 11:00. The Glee Club concert will in-

clude: "Zion Hears the Watchmen Singing," by Buxtehude; "Oh, Morning Star," by Nicolai; and, in a lighter vein, "Brunette," arranged by H. A. Matthews; "Summertime."

Last Rehearsals

The last week of Glee Club rehearsals for the Rogers Hall concert has been intensive. Full choir rehearsals were held on Monday and Tuesday evenings, the latter on the George Washington Hall stage. Another will be held on Friday evel in a voice hoarse, vibrant, ghostly,

This morning the seventy Glee Club members going to Rogers Hall, surprised the student body and Administration, by singing some of their pieces from the stage during Assembly. "Brunette," "Summer Time," and "I Got Plenty of Nuttin" were given. They were introduced by Mr.

Howes, who led and accompanied the singing. The applause from the audience indicated their strong approval of the music.

eral weeks ago under the direction of Mr. Willard, at which time a group of six was chosen to speak in the finals. The first of these to recite, John C. Altrocchi of Berkeley, California, presented a selection from Booth Tarkington's "Seventeen," in which the youth entreats his father to get him a dress suit. Somewhat of a problem was presented by the fact that the passage December 2, about 70 P. A. is in dialogue, but the speaker met Glee Club and Orchestra members this readily, carrying with considerwill travel to Rogers Hall for their able skill and tonal variety the first concert this year. Under the humorous conversation as it rose direction of Mr. Arthur Howes, the and fell. Interpolating appropriate Glee Club will sing several sacred moments of silence (during which Papa, no doubt, wavers miserably chestra, conducted by Mr. Frank in his dilemma, finally deciding MacDonald, will present two classi- definitely against the dress suit) and adding sparkling life to the enunciation of especially humorous group to leave Andover for Lowell lines, the speaker started proceedat 3:30 Saturday afternoon. The ings in a spirit of competence and

Two Poets Represented

Next, "Mending Wall" and "A Leaf Treader," by Robert Frost, were heard. Richard E. Carter of Nashua, New Hampshire, reciting these poems, expressed them in a slow, deliberate manner, his voice being soft but seldom monotonous. Carefully dwelling upon every consonant, he did thorough justice to the quiet, philosophical, contemplative mood of Frost's works, never accelerating where acceleration might have proved fatal and passing over no small considerations; however, in the second poem, he forgot his lines for a moment during the passage, "all summer long . . .", recovering the memory of them only after an unfortunate pause.

James S. Darling of Hampton, Virginia, followed, his selection having been made from Tennyson's labored "Ode on the Death of the Duke of Wellington." Commencing and strained, he showed himself to good advantage in the dirge-like rising and falling of the doleful opening cadences; later, in dramatic description of the immortal Duke's gory exploits, this voice grew thinner but more imperious as volume increased. Except for a negligible slip during the latter part, this speaker showed an admirable command over his piece. which was the longest presented up to that time.

-Continued on Page 3

Student Council Minutes

Meeting was called to order at 12:40 by President Moher. All members were present except Fields.

The Council discussed the problem of the missing Library books. All books were not returned after Moher's appeal in Assembly, Saturday. It was decided to have an Upper class meeting on Friday. Severe penalties would be issued for boys having illegal books after 6:00 p.m. Friday night.

The Council also discussed the problem of petty thievery downtown, but no decision was reached.

The Council next discussed the conditions in the Commons in relation to the recent PHILLIPIAN editorial.

The meeting adjourned at 1:15 p.m. Respectfully submitted, L. M. GAINES, Sec.

tic Press Association as well as of the Daily Princetonian Association of Preparatory School Papers.

The PHILLIPIAN is published Wednesdays during the school year by The PHILLIPIAN board. Entered as second class matter at the post office at Ancover, Mass, under the act of March 3, 1879.

Address all correspondence concerning subscriptions or advertisements to John G. Holbrook, Business Manager,

School subscription \$3.00; Mail subscription \$3.50. The PHILLIPIAN is distributed to subscribers at the Commons and is for sale at the Andover Inn.

The PHILLIPIAN does not necessarily endorse the Office of publication: The Townsman Press, Inc., Park Street.

Andover, Mass., November 29, 1944

The PHILLIPIAN takes pleasure in announcing the appointment of Roland R. Algrant to the position of Sports Editor.

The Last Appeal

THE SUBSCRIPTION drive for The Mirror held last week proved to be an outstanding success. To all indications the revived literary magazine has been given solid financial support by the undergraduate body. The new board may now concentrate on the production of a magazine worthy to represent the school and worthy of its support.

At present subscriptions have been solicited for two of the three publications edited by students here. These two, THE PHILLIPIAN and the aforementioned Mirror, have received adequate financial support from the student body. The circulatoin drive for the third, the Pot Pourri, school yearbook, will be held this Friday evening.

The Pot Pourri, as its name implies, is a mixture or medley-in this case of all the happenings of the school year. It embodies all the principles of the modern newsmagazine, organizing and digesting events and activities into a striking, readable, permanent record, doing this both editorially and pictorially.

Last year the Circulation Board sold over six hundred copies. This year's capable staff has planned on the same amount of support this year, but if more are sold, an even better book will result. Though the price may seem high, it does not appear so when the quality of the book and the fact that a limited edition such as this must cost more to the individual purchaser are taken into consideration. The staff has overcome wartime difficulties, and with proper backing can and will produce one of the finest books ever seen here.

Physical Fitness

COME BOYS are still not convinced of the value of body building. Though both the regular Navy and the Naval Air Corps heartily endorse this program of physical fitness, there are still some skeptics in the school who feel that the few push-ups and knee bends done, do little toward putting a person in good condition. Along with this dislike of the

body building goes a hearty dislike and unbelief in the step test. However, day by day these skeptics are being proved wrong. On Sunday another block in the wall of evidence on behalf of body building was laid.

Lt. Commander Carl Olsen, as head track coach at the University of Pittsburgh, has had many experiences with boys in both excellent and poor physical shape. More recently, as an officer in the Navy, he has had many more contacts with boys in all physical conditions. His opinion, expressed at the sports banquet Sunday, that body building along with competitive athletics is essential to ar athlete, should mean something. And to go one step further, competitive athletics alone is not enough for the growing boy, but must be coupled with body conditioning exercises. These thoughts come from a man long experienced in working with athletes.

Still another block of proof fell in place when the results of the recent check-up after fall athletics were tabulated. In the group of fifty boys whose September step test was less than 60, 42, or 84%, had a score of 60 or better. The average of these fifty boys jumped from 56.6 in September to 63.6 last week. In addition, fifteen varsity soccer and twenty-five varsity football men were tested and their average jumped 9.8 and 7.5 points respectively. In Another test, thirty-nine of the boys who received "D" in their rope climb in September were able to obtain a "C" or better when re-checked after a fall term of body building.

In the words of Dr. Gallagher, under whose direction this system of body building has been instituted, "These figures suggest to me that our present program of athletics and body building is of real benefit as far as these aspects of physical fitness are concerned. It looks as if we are getting heavier, healthier and stronger every day."

This overwhelming proof on behalf of body building makes it impossible to deny its usefulness, for every team which represents Andover on the playing fields is in much better condition now than it was even four years ago.

Movie Preview

There'll be another mystery at G.W.H. Saturday, and this time it's the ghost thriller, "The Uninvited," with

Ray Milland, Ruth Hussey and Gail Russell. This show is first-rate entertainment and should easily stand comparison with last week's "Double

Indemnity." The plot of "The Uninvited" differs from the latter by the touch of humor given to the situation. It all starts when Ray Milland and his sister, Ruth Hussey, go for a vacation

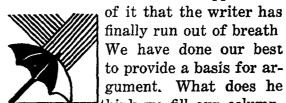

to the Devon coast, and find a little house that stands on a high cliff overlooking the sea. The old sea-captain from whom they buy the house warns them of "disturbances," and later, when his grand-daughter, Gail Russell, is invited there for dinner, he refuses to let her go. The humor stems from the outlandish spirits in the movie — ghosts than can wear mimosa perfume and turn pages in books, besides trying a little murder on the side, not at all the things ghosts are expected to do.

Everything ends well, though, with Milland marrying Russell and the ghosts going to wherever ghosts go.

The show is exciting and well produced. Dorothy Stickney and Cornelia Otis Skinner do excellent jobs as supporting ghosts. All in all, the picture should go over well, and serve to disturb the sleep of the audience.

Splatter

Those who struggle through "that column" every week were perhaps gratified to discover in the last appearance

finally run out of breath We have done our best to provide a basis for argument. What does he think we fill our column

with? That is, provided he does us the honor of reading it.

Fierce and bloody as was the Thanksgiving Day Rockwell-Williams football game, chief casualties seemed to be the spectators, caught in the wicked snow cross-fire.

Speaking of last week's snow, news has come to us of a rather one-sided battle between the Williams Hall stalwarts and the combined forces of Rockwell and the Lower Middle Class. The former desire to publicly challenge either of the latter at any one time, to battle them to the death, weather permiting, on whaever grounds are furnished, and have pledged their lives, their liberty, and their sacred honor to the furtherance of their immortal cause.

Now that we're on the subject of Williams Hall, the story is told of the young innocent who sidled up to his proctor and asked breathlessly, "How old do I have to be before I can go out for Varsity History?"

Dr. Shipman Advises P. A. Student On Entering Medical Profession

(Continued From Page 1)

Educational Requirements

Let us see just what you need to study Medicine. In the first place. you must be a graduate of an accredited college. In some instances it is possible to take a so-called 'pre-Medical course" in which the senior year in college is actually combined with the first year of Medical School. The value of this concentration is open to question. The scholastic requirements in different Medical schools vary, but in general you must have the following courses: two or three years of hollege chemistry, a year each of physics, biology and mathematics, and a fluent reading knowledge of one or two modern foreign languages. The importance of Greek and Latin is intangible but it really exists. Now it is easily possible to major in sciences almost to the exclusion of more cultural studies. It should be kept in mind that college is the last place you will have an opportunity to pursue these "cultural studies" and the broad foun dation is unquestionably of value.

The financial problems of a medical education are not simple. It is not difficult for a good student to be self-supporting in prep-school and college. The first two years in Medical School also offer opportunities for self-help. In the two final years the demands on a student's time are so great and so unpredictable that it becomes increasingly difficult to hold any job with regular hours, no matter how short they may be. There must be something of a financial back-log to help out not only through this period but also through the years of internship that are to follow. This period of residence in a hospital will take anywhere from one to five years or longer, and, except in rare in stances, the salary is nominal

Choice of Practice

Application for admission to Medical School should be made early, Almost all of the best schools have a far greater number of applicants than they can possibly accommodate. Inquiries concerning definite scholastic requirements should be made a couple of years in advance so that one will not end up unexpectedly lacking some one or two particular courses.

Any ideas you may have regarding the type of practice you wish to pursue will undoubtedly undergo

School. Perhaps of greater im tance than the type of practice wish to enter is the nature of place in which you want to live raise your family. Do you pre the city or the country? W sports and activities are you in ested in? For some reason doctor just don't starve in any communi and while the going may be tou at first, you will be assured of living wherever you decide to ha out the shingle. It must be reme bered that the cities tend to attra the specialists while the gene practitioner flourishes more about dantly in the country. This is p fectly understandable and reaso able. A doctor s education continu indefinitely, and he depends u mately for this education on o serving a large number of patient A small town will not ordinari produce enough cases of any o sort to repay the intellectual cu osity of a specialist in a restrict

Specialization

On the other hand many doctor have started off as general pra titioners and later on tried to lim themselves to a specialty. Th have found it an extremely difficu process. A few years of gener practice is undoubtedly an exce lent foundation for any specialt but it may prove necessary to har this preparation in a communit different from the one in which yo ultimately intend to practice.

There is nothing to be gained this time in going into the man specialized forms of medical prac tice. Let us agree merely to say tha there are forms of medical special ization to suit every temperament every personality, even to suit a most every physical handicap. Som doctors prefer the rarefied atmophere of the laboratory; others the earthiness of bedside care in th home. One very prominent obsta trician once said, "The only troubl with obstetrics is that all of you patients are women."

The pathway to the practice of Medicine is along one, it is true It is not a particularly easy one either, but there is no reason wh it should not be a very happy one You don't study Medicine to get re wards, nevertheless the rewards an waiting for everyone with the in telligence and the integrity to star the course,

THOMAS L. SHIPMAN, M.D.

"MOST LIKELY"

For years, college men and prepsters have relished the pleasant custom of voting on who is "most likely" to this or that.

There is no official record of any vote on "The Clothes Most Likely to Succeed"but, if one were polled presently, those eligible to vote most likely would be found during the Christmas holidayreplenishing their wardrobes for Backto-School-in our well known second floor Headquarters for Prepsters.

Williams Vanquished, 26-6, in Thanksgiving Game on Quadrangle

On a snow-covered Upper Quadrangle last Thanksgiving, a spirited Rockwell House team defeated Williams Hall, 26 to 6. Led by Arthur Keeley, who alone accounted for three touchdowns, the Rockwell team struck through the air as well as behind a powerful ground attack.

Williams Hall received the kickoff, but after the first play they fumbled, with Rockwell recovering. Keeley promptly dashed around right end for the first of his three scores. Doug Burns, who pitched perfect passes all morning, tossed to Keeley for the extra point.

Keeley Sprints 75 Yards To Score

Rockwell, however, retained possession of the ball by recovering an onside kick. Burns carried for 20 yards on the first play, but Williams Hall recovered his fumble. Ordeman quick-kicked on the first play, and Rockwell took over on their own 30. On a quick opening play which split the Williams line in two, Art Keeley went 70 yards for what looked like another touchdown. The Brot' Bishop who leads this year's play was called back on an offside penalty, however. Not to be outdone, Art, on the same play, took New England Prep School meet. the ball again and scampered 75 yards to his second score. The conder and Dick Phelps. All these boys version failed, and the quarter | 95 WRESTLERS have shown a lot of ability, but due ended shortly afterwards, with Wilto the fact that there has been only liams Hall in possession.

Rutan and Brewster reeled off to kick before the second period was more than three minutes old. line. After Rockwell made a first down to the nine-yard line, the Williams forward wall stiffened its defense. Following two unsuccessful running plays and a pass, Burns tossed to Brace in the end-zone, but the ball was knocked down by Captain Sawyer of Williams Hall.

After an exchange of punts, Ordeman threw a long pass to Hudson, who snared it and raced the remain ing 30 yards to register the only Williams Hall touchdown. This

Higgins, and Mr. Humphreys.

P.A. WILL BATTLE TUFTS IN INITIAL ENCOUNTER Beach, Paradise Star in Sprints;

Chittick Leads in Distance Runs With only a week of training behind them, this year's winter track men look forward to a successful season. Seem-

ingly strong in both track and field events, a group of about

160 are going through a pre-season workout in the Cage. There have been no time trials as yet, so not until the latter part of pective candidate for varsity comthis week will the first statistics

Charles Gearing heads the manis Myles Chute, who, due to a leg There are, in the distance ranks, injury, cannot run this winter. Another Assistant Manager has not

Two Exeter Meets, B.A.A. Highlight Season

yet been chosen.

A heavy schedule awaits the winer track team this year, with the first meet on January 20 against the powerful Tufts team, which squelched the Blue last year. According to the schedule devised by Mr. DiClemente, P.A. will meet the Harvard cindermen on the 27th, and on the following weekend, Exeter will send its hopefuls down to meet the team in both running and field events. February 10 marks the second meeting of Andover and Tufts, and on the night of the competition, the B.A.A. meet will be held in the Boston Garden where the Blue and Red relay teams will face each other for the first race of the

Scheduled for February 17 is the only meet with M.I.T. The Engineers will send up runners and shot put men, and, judging from last year's score, it will be a tough bunch to beat. Next in the list of track opponents is Worcester Academy, which will see action, and, in all probability, defeat here on Februon last year's P.A. victory to prophesy an easy defeat for Worcester. Winding up the winter season, Andover's trackmen will meet on February 28 the Red and Gray in a return clash on enemy soil.

Strong Distance Group

The distance men, sparked by oratory, in which immediate war Co-Captain Cy Chittick, last year's appeared, in his nervousness, to ing. With time trials coming up Lou Kutscher, and Hustin Hunting, The judges were, Mr. Fitts, Mr. all veterans, look good. Also in the limelight is Jack Alling, a pros-

petition. Up from the cross-country group are Pelham and Grey, who took first and second place respecaging staff this year, and under him tively in the final 21/4-mile run. many probables who may see action this season. Among them are Morrison, Kerr, Jordan, and Kimball.

Powerful threats to any opposition are high jumpers Chandler, a prep, Jackson, and Bouton. Last year, this event was one of the team's weakest, but the future looks brighter this winter.

Vault, Sprints, and Hurdles

With the loss of the "Three H's" (Hatch, Howard, and Hutcheson), Andover's pole-vaulting trio, a gap which will be hard to fill is left this year. However, showing the most ability in this event are Space, Aikens, and Holbrook. The Red and Grey, even without Harwood, who graduated last year, will have, in all probability, some powerful vaulters to face Andover, but with the material he has, Mr. Watt may be able to turn out a good team. A large group is out for this event, and time and statistics will tell how it shapes up.

Without doubt, Skip Paradise and Bob Beach will spark the dashmen this season. It is expected that they will again show their heels to all opponents in the 300 and the dashes. Showing most prospect of the large group out for these events is Bob Cudlip, a new speedster. Mr.

Shepard has planned the time trials for the end of this week. Looking good over the high hurdles are Ross le, Smith Hoy, who may double in the 1000, lt, Hall and Ed Gordon. Also working in lg, Bishop the intensive pre-season practice c, Ward are Adams, Scanlan, and Thomas. rg, Hardenberg Mr. Flanagan, as in past years, is coaching this small group.

Andover's broad jumpers this qb, Connick year will probably be veteran Rick lhb, Burns Hudner and Otis Chandler. How-rhb, Stone ever, there has been very little practice in this event as yet, but soon the distances will start roll-

Holding their own with the shot put this winter will be powerful track lettermen Norm Nourse and "Whale" Griffith. Also getting ready for varsity competition are Holbrook and Tippett, the former f whom has been practicing this fall. As for the discus, Thorndike, who placed second in the Andover-Exeter final meet last spring, leads the group. Lee, Schine, and Wheeler are also training for this field event, and other probables may be up in the front ranks by spring. Among Mr. Flanagan's 35-pound weight trainees are Ward, Neuhoff, Reed, Morse, and Gould. This field event supplements the hammer throw.

There has been no javelin practice as yet, but Mr. Shepard will have Bouton, MacLellan, and Ryan back again with him this winter. Spring track should make good use of the trio, and, as in every other event in winter track, this year, there are many reserves in training.

Rockwell

Continued from Page 3-

same combination failed to add the point. Shortly afterwards, the half ended with Rockwell in the lead,

Burns, Stone and Keeley sparked the Rockwell attack again in the second half. After receiving the kickoff, Rockwell drove down into rival territory, with Keeley again going over on a 20-yard end run. A Burns pass to Parsons, who was in at end, produced the point. Williams took the kickoff and marched 50 yards, only to have a pass intercepted deep in Rockwell territory. Rockwell struck through the air again, with Stone taking a pass from Burns for the final tally of the game. As the point was missed, the score stood at 26 to 6.

Williams took to the air in a desperate attempt to score, but Bobby Ward, brother of Varsity center Larry Ward, intercepted a Williams threatening to score.

It was very evident that the Rockwell team had been wellcoached and trained for this game. Their downfield tackling and blocking equaled any seen here in the past few years. The Williams Hall team also deserves credit. They were playing their hardest all morning, but went down to defeat before an older and more experienced team.
